

D. B. HALL.
Bag Fastener.

No. 63,510.

Patented April 2, 1867.

Inventor:
David B. Hall
by D. C. Cossy
Attorney.

United States Patent Office.

DANIEL B. HALL, OF BUCKSPORT, MAINE, ASSIGNOR TO HIMSELF AND
HOWARD TILDEN, OF BOSTON, MASSACHUSETTS.

Letters Patent No. 63,510, dated April 2, 1867.

IMPROVEMENT IN BAG TIES.

The Schedule referred to in these Letters Patent and making part of the same.

TO ALL WHOM IT MAY CONCERN:

Be it known that I, DANIEL B. HALL, of Bucksport, in the State of Maine, have invented certain new and useful Improvements in Methods of Tying Bags; and I do hereby declare the following to be a full and exact description of the same, reference being had to the drawings which accompany and form a part of these specifications, in which—

Figure I is a view of the perforated strap used.

Figure II view of the same around the bag in the usual place of the string or ordinary bag tie.

Letter A, a leather strap; letter B, double metallic plate, with the oblong opening *e* through it, as in Fig. I; letter *d*, small metallic tip, like shoe-lacing tip; letters *e e e e*, openings through the strap A, and, if need be, eyelets inserted, as seen in Fig. I.

The manner of constructing my improved bag tie will be readily comprehended from the drawings.

To use it, I sew or otherwise fasten it to the bag at a point a short distance from the wide end, say at *g*; then gathering up the mouth of the bag I pass the strap around, and putting the small end through the slot or opening *e*, draw it up close, and passing the tip *d* through the eyelet, close to the metallic plates B, I draw it through more or less, and the various parts will be found as in Fig. II, and the bag securely tied.

The object of my invention is to expedite and render more easy the tying and untying of grain and other bags.

What I claim, is—

The bag tie, constructed of the strap A, the plates B, or their equivalent, and provided with the openings *e e e e*, either with or without the eyelets, substantially as described, and to operate as set forth.

DANIEL B. HALL.
