Inventor,

Jonathan B. Evans

United States Patent Office.

JONATHAN B. EVANS, OF MILLVILLE, NEW JERSEY.

Letters Patent No. 71,474, dated November 26, 1867.

IMPROVED DOOR-LATCH.

The Schedule referred to in these Letters Patent and making part of the same.

TO ALL WHOM IT MAY CONCERN:

Be it known that I, JONATHAN B. EVANS, of Millville, in the county of Cumberland, in the State of New Jersey, have invented a new and useful Door-Latch; and I do hereby declare that the following is a full, clear, and exact description of the construction and operation of the same, reference being had to the drawing annexed, making a part of the specification, in which—

A A A A are the lock-case; B, the bolt; C, the rod connected with the knob; D, a bent lever, one end working in a slot in the bolt B, and the other end working in a slot in the knob-rod C; E, spiral-spring; F, a projection in lock-case to steady the bolt B.

The latch can be drawn back by simply pulling the knob on the inside, or pushing it on the outside.

What I claim is—

The combination and arrangement of the bolt B, bent lever D, spring E, projection F, bolt and knob C, and case A, as and for the purpose specified.

JONATHAN B. EVANS.
