United States Patent Office.

WILEY KENYON, OF CRAWFORDSVILLE, INDIANA.

Letters Patent No. 94,754, dated September 14, 1869.

PHOTOGRAPHIC HEAD-REST.

The Schedule referred to in these Letters Patent and making part of the same.

To all whom it may concern:

Be it known that I, WILEY KENYON, of Crawfordsville, in the county of Montgomery, and State of Indiana, have invented a new and improved Head-Rest; and do hereby declare that the following is a full, clear, and exact description thereof, which will enable others skilled in the art to make and use the same, reference being had to the accompanying drawings, forming part of this specification, in which—

Figure 1 is a side view of my photographic head-rest and posing-apparatus.

Figure 2 is a separate view of my yoke, hook, and burr, of same.

Figure 3 is my self-adjusting rod-slide.

A A, in fig. 1, represent the base and standard of my photographic head-rest and posing-apparatus.

C, handle.

B, the rods, (adjustable to any height of subject.)

E E' stationary rod-guides.

F, apparatus for fastening and adjusting back-rest.

I, back-rest.

G, point of fastening and adjusting head-rest.

H, head-rest, made of any metallic substance.

A, in fig. 2, represents the yoke.

B, hook, and

C, the burr, as viewed detached from my photographic head-rest and posing-apparatus.

D, in fig. 3, is a detached view of my rod-supporting slide.

F, point of attaching the rod to slide, which can be constructed of any of the known metals.

Having thus described my invention,

What I claim as new and useful, and desire to have secured by Letters Patent of the United States, is—

The rod-guide represented in fig. 1 by E', and the parts as represented in fig. 2 by A, and also the slide represented in fig. 3 by E and D, arranged and operating substantially as and for the purpose specified, not limiting myself to any definite size of same.

The above specification of my invention, signed by me this 5th day of October, 1868.

WILEY KENYON.
