J. C. PRICE, OF NEW PHILADELPHIA, OHIO,

Letters Patent No. 95,138, dated September 21, 1869.

IMPROVED SASH-ROPE PULLEY.

The Schedule referred to in these Letters Patent and making part of the same.

To all whom it may concern :

Be it known that I, J. C. PRICE, of New Philadelphia, in the county of Tuscarawas, and in the State of Ohio, have invented certain new and useful Improvements in Sash-Rope Pulleys; and do hereby declare that the following is a full, clear, and exact description thereof, reference being had to the accompanying drawings, and to the letters of reference marked thereon, making a part of this specification.

The nature of my invention consists in forming the bisected sash box in such a manner, that when provided with the pulley, it can be set into the window-frame without the aid of screws or nails to hold it in place, as hereinafter set forth.

In order to enable others skilled in the art to which my invention appertains to make and use the same, I will now proceed to describe its construction and operation, referring to the annexed drawings, in which—

Figure 1 is a front view;

Figure 2, a side view; and

Figure 3, an edge view.

A represents the pulley-wheel, constructed in any of the known and usual ways, and having a journal, *a*, on each side.

This wheel is placed in a box, B, made of two pieces, each forming one-half of the box.

These pieces are made with a bevelled or sharpened projection, *b*, at each end, which, when the box is put together, are driven into the wood, and hold the box securely in position.

To prevent the two halves of the box B from separating or slipping in any manner, one of them is provided with a notch at each end, and the other has a projection, *c*, fitting in the same.

I am aware that a bisected sash-box is not new; but

What I claim, is—

The bisected sash-box B, provided with the alternate projections *b* and *c*, on the upper and lower surfaces, and supporting the pulley A, all substantially as and for the purposes set forth.

In testimony that I claim the foregoing, I have hereunto set my hand, this 27th day of July, 1869.

J. C. PRICE.
