

UNITED STATES PATENT OFFICE.

VINCENT BROSSEAU, OF ST. SEBASTIAN, CANADA.

IMPROVEMENT IN THE MANUFACTURE OF IMITATION MEDICATED WINES.

Specification forming part of Letters Patent No. **145,928**, dated December 30, 1873; applica'tion filed June 5, 1873.

To all whom it may concern:

Be it known that I, VINCENT BROSSEAU, of St. Sebastian, county and district of Iberville, Province of Quebec, Canada, have invented a certain Compound called "Vin Anti-Dyspeptique et Fortifiant de Brosseau," ("Brosseau's Anti-Dyspeptic and Strengthening Wine,") to be used in the treatment of dyspepsia and debility, of which the following is a specification:

To prepare the anti-dyspeptic and strengthening wine, take one gallon of the juice of the elderberry fruit; then add half a gallon of wa-

ter, one ounce of ground ginger, and three pounds and a half of sugar. Wait three days for the fermentation; then put the compound in bottles. It is then ready for use.

I claim as my invention—

A compound of elderberry juice, water, ginger, and sugar, substantially as and for the purpose specified.

St. Sebastian, P. Q., May the 17th, 1873.

VINCENT BROSSEAU.

Witnesses:

H. BROSSEAU,
JOSEPH BROSSEAU.
