# UNITED STATES PATENT OFFICE.

ALBERT O. BAKER, SANFORD W. GRANT, AND JAMES B. BLACK, OF  
PROVIDENCE, RHODE ISLAND.

## IMPROVEMENT IN BRACELETS.

Specification forming part of Letters Patent No. **149,823**, dated April 21, 1874; application filed  
February 7, 1874.

### CASE A.

*To all whom it may concern :*

Be it known that we, ALBERT OSBORN BAKER, SANFORD WHITING GRANT, and JAMES BELL BLACK, all of the city and county of Providence, in the State of Rhode Island, have invented a new and useful Improvement in Bracelets; and we do hereby declare that the following specification, taken in connection with the drawings making a part of the same, is a full, clear, and exact description thereof.

Figure 1 represents in perspective the finished bracelet. Fig. 2 represents, on an enlarged scale, a section, showing the arrangement of the several strands which compose the fabric of the bracelet.

In the drawings, *a a* are strands of fine wire, each being wound spirally around its own axis, in "right-hand" convolutions. The convolutions of each strand are interlocked with those of the next adjacent one, as shown at Fig. 2. *b b* are similar strands of wire wound spirally in "left-hand" convolutions, and interlocked with each other in the same manner as the

strands *a a*. The two sets of strands *a* and *b* are then interlaced and united by means of a wire, *c*, arranged lengthwise of the fabric.

The wire *c* should be fastened at its ends by solder, and the ends of the fabric should be covered with suitable mountings *A*, as shown at Fig. 1.

What we claim as our invention, and desire to secure by Letters Patent, is—

The improved bracelet, composed of spirally-twisted wire strands *a a b b*, respectively, interlocked with each other, the one set, *a*, being wound in right-hand, and the other set, *b*, in left-hand convolutions, and the two sets being united together by a wire, *c*, arranged lengthwise of the bracelet, substantially as described and shown.

ALBERT OSBORN BAKER.  
SANFORD WHITING GRANT.  
JAMES BELL BLACK.
