

# UNITED STATES PATENT OFFICE.

LUCINDA HATTES, OF MARSEILLES, ILLINOIS.

## IMPROVEMENT IN MEDICAL COMPOUNDS.

Specification forming part of Letters Patent No. **153,080**, dated July 14, 1874; application filed April 18, 1874.

*To all whom it may concern:*

Be it known that I, LUCINDA HATTES, of Marseilles, in the county of La Salle and State of Illinois, have invented a new and valuable Improvement in Medicines; and I do hereby declare that the following is a full, clear, and exact description of the same.

This invention has relation to a new and improved medical compound for the cure of cholera, cholera morbus, cholera infantum, diarrhea, and bloody flux; and it consists in the combination of the following medical substances in about the proportions hereinafter specified.

I put two ounces of peppermint in one and a half pint of boiling water; one and a half ounce of kino in a half-pint of boiling water; one ounce of rhubarb in a half-pint of boiling water. When the solutions are cooled they are separately filtered, mixed together, and one and a half pint of alcohol is added. Then dissolve one ounce of opium in half a pint of water, and add one half-pint of alcohol; also, dissolve one half pint of camphor in a vessel containing a half-pint of water and a half-pint of alcohol. I then put all of the above solu-

tions in one vessel, and add one and a half pint of the best brandy, and also a half-ounce of carbonate of soda. I then filter, and after the solution stands one week it is ready for use.

The quantity of the above solution is six and one-half pints, containing one ounce of opium, which gives about four grains of opium to each fluid ounce of the solution; consequently, the dose for an adult will be one-fourth, more or less, of a fluid ounce.

The dose will, of course, vary, according to the age and condition of the patient and the character of the disease.

What I claim, and desire to secure by Letters Patent, is—

The cholera medicine composed of the ingredients named, and mixed together in about the proportions specified.

In testimony that I claim the above I have hereunto subscribed my name in the presence of two witnesses.

LUCINDA HATTES.
