UNITED STATES PATENT OFFICE.

CLINTON A. WEED, OF RACINE, WISCONSIN.

IMPROVEMENT IN PILLOW-SHAMS.

Specification forming part of Letters Patent No. **202,387**, dated April 16, 1878; application filed February 9, 1878.

To all whom it may concern:

Be it known that I, CLINTON A. WEED, of Racine, in the county of Racine, in the State of Wisconsin, have invented certain Improvements in Pillow-Shams, of which the following is a specification:

My invention has for its object the covering of pillows during the day with shams, and having them kept smooth, and at night they are rolled up, and the roller laid up on brackets out of the way.

Referring to the drawing forming part of this specification, Figure 1 is a view of the invention, the shams covering the pillows; and Fig. 2, a view of the shams rolled upon the roller and laid up out of the way.

In the drawings, A is the bedstead; B, a roller having pins E at intervals of its length, to which shams C are attached to hold them on

the roller; D D D D, brackets on the bed-posts, on which the roller is laid.

Operation: The roller is laid in the lower brackets, and the shams spread out over the pillows; and at night, before retiring, roll up the shams round the roller, and lay the roller on the brackets above.

What I claim as new, and desire to secure by Letters Patent, is—

1. Roller B and sham C, in combination with brackets D, substantially as described.
2. The roller B, having pins E and shams C attached to the roller, substantially as and for the purposes described.

CLINTON A. WEED.

In presence of—

C. S. GRIFFIN,
E. C. DEANE.
