

UNITED STATES PATENT OFFICE.

WILLIAM DOEPP, OF HOMEWOOD, ILLINOIS.

TOOTH-POWDER.

SPECIFICATION forming part of Letters Patent No. 249,462, dated November 15, 1881.

Application filed February 23, 1881. (No specimens.)

To all whom it may concern:

Be it known that I, WILLIAM DOEPP, of Homewood, in the county of Cook and State of Illinois, have invented a certain new and
5 useful Tooth-Powder, of which the following is a specification.

My tooth-powder consists of the following ingredients, mixed in the proportions stated, viz: precipitated carbonate of lime, two and
10 one-half ounces; powdered white sugar, one and one-half ounce; white castile-soap, one-half ounce; salicylic acid, fifteen grains; oil of peppermint, fifty drops; oil of cinnamon, ten drops. These ingredients are thoroughly
15 mixed together, the castile-soap being first pulverized.

This tooth-powder is healthful for the teeth and gums, and is in no respect injurious thereto. It is an excellent cleaning agent, is pleasant to the taste, and is refreshing and cooling
20 to all parts of the mouth.

What I claim as my invention is—

The herein-described tooth-powder, consisting of precipitated carbonate of lime, white sugar, white castile-soap, salicylic acid, oil of
25 peppermint, and oil of cinnamon, substantially in the proportions specified.

WILLIAM DOEPP.
