

UNITED STATES PATENT OFFICE.

BERNARD FARLEY, OF SAN FRANCISCO, CALIFORNIA.

REMEDY FOR DYSPEPSIA.

SPECIFICATION forming part of Letters Patent No. 343,660, dated June 15, 1886.

Application filed March 4, 1886. Serial No. 194,031. (No specimens.)

To all whom it may concern:

Be it known that I, BERNARD FARLEY, a citizen of the United States, residing at San Francisco, in the county of San Francisco, State of California, have invented certain new and useful Improvements in Medical Com-
pounds for the Treatment of Dyspepsia, of which the following is a specification.

My composition consists of the following ingredients, combined in the proportions stated, viz: pure water, three quarts; molasses or treacle, one-half pint; Epsom salts, one-half pound; aloes, one ounce; cream tartar, one ounce; ground ginger, one ounce; extract of licorice-root, one-half ounce; senna-leaves, one half ounce; flake manna, one-half ounce; Cayenne pepper, one-fourth ounce.

First boil for one hour the senna, aloes, manna, and licorice together in the three quarts of water into which has been put one-half the quantity of molasses or treacle above named, after which add the Epsom salts, cream-tartar, ginger, and Cayenne pepper, together with the balance of the molasses. Then set away to cool and macerate for the space of twenty-four

hours, when the compound may be strained or filtered for use.

Dose: For an adult person, one gill, or eight (8) table-spoonfuls, may be taken at bed time and one-half of a gill, or four (4) table-spoonfuls, before breakfast for three days in succession, after which a cessation or omission of three days, when, if the disease is not eradicated, the doses are resumed as above.

By the use of the above composition I have succeeded in permanently benefiting many persons who have been afflicted with dyspepsia.

What I claim, and desire to secure by Letters Patent of the United States, is—

The herein-described composition of matter used for dyspepsia, consisting of senna, manna, Epsom salts, aloes, molasses, cream tartar, ginger, licorice, and red pepper, in the proportions specified.

In testimony whereof I affix my signature in presence of two witnesses.

BERNARD FARLEY.

Witnesses:
