INVENTOR

UNITED STATES PATENT OFFICE.

EDOUARD DE VIRGILE, OF NEW YORK, N. Y., ASSIGNOR TO ADRIEN BONNET,
OF SAME PLACE.

TOY OR PUZZLE.

SPECIFICATION forming part of Letters Patent No. 486,141, dated November 15, 1892.

Application filed November 3, 1891. Serial No. 410,788. (No model.)

To all whom it may concern:

Be it known that I, EDOUARD DE VIRGILE, a citizen of the United States, residing in the city, county, and State of New York, have
5 invented and designed a new, useful, and original Toy or Puzzle, of which the following is a specification, reference being had to the drawings herewith submitted and forming a part thereof.
10 Figure 1 represents the three parts or pieces of celluloid or other thin tough flexible material of which the toy or puzzle is composed, taken separately and apart. Fig. 2 represents the said three parts or pieces composing the
15 toy or puzzle joined or combined together in such a manner as to give rise to the problem which constitutes the puzzle—viz., how to

separate them without tearing, destroying, or injuring the parts or any of them; Fig. 3, as far as practicable, the solution of the problem 20 or puzzle—viz., the manner of taking the pieces apart as aforesaid.

What I claim is—

In a puzzle, the combination of three pieces of celluloid or similar thin tough flexible ma- 25 terial of the shape and relative proportions described, and illustrated in the drawings above referred to, and for the purpose set forth.

Dated New York, October 21, 1891.

ED. DE VIRGILE.
