UNITED STATES PATENT OFFICE.

GREEN FENTON, OF CLEVELAND, OHIO.

COMBINED STOVE-COVER AND GRIDDLE.

SPECIFICATION forming part of Letters Patent No. 561,507, dated June 2, 1896.

Application filed September 18, 1894. Serial No. 523,359. (No model.)

To all whom it may concern:

Be it known that I, GREEN FENTON, a citizen of the United States, and a resident of Cleveland, in the county of Cuyahoga and State of Ohio, have invented new and useful Improvements in a Combined Stove-Cover and Griddle, of which the following is a specification.

This invention relates to covers for cook-
10 stoves; and it consists of the new construction of a cover, substantially as hereinafter described, and pointed out in the claim.

In the accompanying drawings, Figure 1 is a perspective view of my new cover. Fig. 2
15 is a cross-section of the same.

A is a disk having a slanting flange B at its edge, and which is connected with a ring

C, the whole forming a solid cover having a depressed top. In the ring are provided a number of slots or open spaces *c c* for the ad- 20 mission of air under the cover. These slots may be made in the sides or the lower edge of the ring or in both, as may be desired.

Having described my invention, what I claim, and desire to secure by Letters Pat- 25 ent, is—

The herein-described cover for stoves, consisting of a ring C having slots or openings *c c* in its sides and a solid depressed top B, substantially as described.

GREEN FENTON.

Witnesses:

C. C. DAVIDSON,
GEO. W. TIBBITTS.
