UNITED STATES PATENT OFFICE.

MILTON F. POWERS, OF WINCHESTER, MASSACHUSETTS.

NECKTIE.

SPECIFICATION forming part of Letters Patent No. 768,299, dated August 23, 1904.

Application filed December 8, 1903. Serial No. 184,275. (No model.)

REISSUED

To all whom it may concern:

Be it known that I, MILTON F. POWERS, a citizen of the United States, residing at Winchester, in the county of Middlesex and State of Massachusetts, have invented certain new and useful Improvements in Neckties; and I do hereby declare the following to be a full, clear, and exact description of the invention, such as will enable others skilled in the art to which it appertains to make and use the same.

This invention relates to neckties; and it consists in the novel construction and combination of the parts hereinafter fully described and claimed.

In the drawings, Figure 1 is a plan view of the necktie. Fig. 2 is a side view of the necktie. Fig. 3 is a plan view of the necktie, showing a modification.

The necktie is formed of two end portions A A, of textile material, shaped so as to be fashioned into any of the forms of fancy knots or bows which are popular. The middle part B of the necktie, which extends around the back of the collar, is preferably formed of a

cord the end portions of which are secured between the plies of the end portions A A in any approved manner.

This form of necktie is very convenient for use in connection with certain forms and shapes of collars, and when the middle part B is formed of a round cord either end portion can be reversed without reversing the other end portion.

In the modification shown in Fig. 3 a narrow flat tape B' is substituted for the round cord.

What I claim is—

In a necktie the combination, with two end portions formed of textile material, of a middle portion formed of a round cord the end portions of which are secured between the plies of the aforesaid end portions of the necktie.

In testimony whereof I affix my signature in presence of two witnesses.

MILTON F. POWERS.

Witnesses:

ALICE J. MURRAY,

FREDERICK K. DAGGETT.
