

UNITED STATES PATENT OFFICE.

FRANS W. BROCK, OF TOMBSTONE, ARIZONA TERRITORY.

HAIR-TONIC AND DANDRUFF PREVENTIVE.

No. 855,383.

Specification of Letters Patent.

Patented May 28, 1907.

Application filed July 20, 1905. Serial No. 270,508.

To all whom it may concern:

Be it known that I, FRANS W. BROCK, a citizen of the United States, residing at Tombstone, in the county of Cochise, Territory of Arizona, have invented a new and useful Hair-Tonic and Dandruff Preventive, of which the following is a specification.

My composition consists of the following ingredients combined in the proportions stated,—namely,—extract of witch hazel, ten ounces, hydrate of chloral, two drams, cochineal, one dram, Florida water, one ounce, alcohol, one ounce. These ingredients are to be thoroughly mingled by agitation.

In using the above named composition, the same is to be applied to the scalp at suitable intervals of time, and when so applied, it softens the scalp and prevents the formation of dandruff, and allows the scalp and the hair to come into a natural condition, in which it may be maintained by continuing the applications from time to time as found necessary.

I regard the hydrate of chloral and witch hazel as the primal elements of the composition, but find the composition containing all the elements above set forth, and in the proportions specified to be most satisfactory

and effective for the purpose stated. The Florida water and alcohol afford an appropriate diluent and vehicle for the other ingredients.

What I claim is:—

1. A composition of matter to prevent dandruff and to stop falling out of the hair, consisting of extract of witchhazel, hydrate of chloral, cochineal, Florida water and alcohol, in substantially the described proportions.

2. A composition to prevent dandruff and stop falling out of the hair consisting of extract of witchhazel, hydrate of chloral, and a suitable diluent and vehicle in substantially the described proportions.

3. A composition for preventing dandruff and stopping the falling out of the hair, containing extract of witchhazel and hydrate of chloral in the proportions of ten ounces of the former and two drams of the latter.

In testimony whereof, I have hereunto set my hand at Tombstone Arizona this 10th day of July, 1905.

FRANS W. BROCK.
