

UNITED STATES PATENT OFFICE.

ARTHUR B. FULTON, OF CLEMONS, AND TREFFLE BERGERON, OF AUGUSTA, MONTANA.

COMPOSITION FOR REMOVING CORNS FROM THE FEET OF HORSES.

934,515.

Specification of Letters Patent. Patented Sept. 21, 1909.

No Drawing.

Application filed March 15, 1909. Serial No. 483,531.

To all whom it may concern:

Be it known that we, ARTHUR B. FULTON, a citizen of the United States, residing at Clemons, in the county of Lewis and Clark and State of Montana, and TREFFLE BERGERON, a citizen of the United States, residing at Augusta, in the county of Lewis and Clark, State of Montana, have invented a new and useful Composition of Matter to be Used for Removing Corns from the Feet of Horses, of which the following is a specification.

Our composition consists of the following ingredients, combined in the proportions stated, viz:

Croton oil..... 6 ounces,
Sulfuric ether..... 4 ounces,
Tincture of iodine..... 4 ounces.

These ingredients are to be poured together, and mixed thoroughly by stirring, kept in

tightly corked bottles, and well shaken before using.

In using the above described composition the outside surface should be well pared from the corn and the preparation applied with a brush, feather, or medicine dropper.

We claim:

1. The herein described composition of matter, consisting of croton oil, tincture of iodine and sulfuric ether, substantially as described and for the purpose specified.

2. The herein described composition of matter for removing corns from the feet of horses, consisting of croton oil, six ounces, tincture of iodine four ounces, and sulfuric ether four ounces, substantially as described.

ARTHUR B. FULTON.
TREFFLE BERGERON.
