The schedule referred to in these Letters Patent and making part of the same

To all whom it may concern:

Be it known that Samuel D. The design cannot be easily described in words, and the several plates which embrace the design are represented in the drawings in their proper relation and designated by letters as follows.

(The various doors shown in the drawings being attached to certain plates are considered as forming parts of the plates).

Letter B. represents the bottom.

"	T.	"	"	top

What I claim as my invention, and desire to secure by Letters Patent, is the combination of the several ornaments and mouldings as arranged together in the drawings, the whole forming an ornamental design for a Cooking Stove.
