GORHAM MANUFACTURING CO.

ASSIGNEES OF

GEORGE WILKINSON'S

"Italic" Design for Handle of Spoons Forks and other Table Ware.

N^o. 2995

PATENTED
APR 7 1868

Witnesses, J. H. P. Lawton *Inventor, Geo. Wilkinson*
Isaac A. Brunell,

United States Patent Office.

GEORGE WILKINSON, OF PROVIDENCE, RHODE ISLAND, ASSIGNOR TO THE
GORHAM MANUFACTURING COMPANY, OF SAME PLACE.

Design No. 2,995, dated April 7, 1868.

DESIGN FOR A FORK OR SPOON-HANDLE CALLED "ITALIC."

The Schedule referred to in these Letters Patent and making part of the same.

TO ALL WHOM IT MAY CONCERN:

Be it known that I, GEORGE WILKINSON, of the city and county of Providence, and State of Rhode Island have originated a new Design for Articles of Silver, and other metals and plated ware, of which the following is a full, clear, and exact description, reference being had to the accompanying specimens or drawings, making part of this specification; that is to say, for a design called the "Italic," for the handles of spoons, forks, and other table-ware and implements, of which—

Figure 1 of the said drawing is a view of the front side of the said design.

The said design consists of the general outline, shape, form, or contour of the handle, as represented, with ornamental configurations of a character suited thereto.

The said outline comprises a flat stem or shaft, J, contracted from the shoulders *f*, and expanding gradually, with an almost imperceptible curve, to the width required for the blade H, thence curving easily toward the extremity of the handle, which terminates in a half-diamond shape peak S.

The surface and edges of this design are without ornamentation of any kind, except so far as is represented in the drawing, that is, with a slightly-rounded or bevelled edge on the front side, extending from the diamond peak S to the point *n* of the stem or shaft, where it commences to expand.

Claim.

I claim the design for the handles of spoons, forks, &c., as herein set forth and shown.

Witnesses:

J. F. P. LAWTON,
ISAAC A. BROWNELL.

GEO. WILKINSON.
