UNITED STATES PATENT OFFICE.

JULIAN E. CAREY, OF PLAINFIELD, NEW JERSEY, ASSIGNOR TO S. S. FISHER,
OF NEW YORK, N. Y.

DESIGN FOR ORNAMENTING CLOTH.

SPECIFICATION forming part of Design No. 12,351, dated July 12, 1881.

Application filed May 13, 1881. Term of patent 7 years.

To all whom it may concern:

Be it known that I, JULIAN E. CAREY, of Plainfield, in the county of Union and State of New Jersey, have invented a new and original
5 Design for the Ornamentation of Cloth, of which the following is a specification.

The accompanying drawing represents a face view of my new design.

This design relates to a new ornamentation
10 for cloth by means of depressed grooves or furrows. The cloth is ornamented by a series of parallel waved lines between two series of parallel straight lines, forming a stripe in alternation with rows of short diagonal lines.

15 In the drawing, A represents a piece of cloth ornamented with my new design.

B is a stripe composed of two series of parallel straight lines, *b b* and *b b*, and one series of parallel waved lines, *d d*.

C is a stripe parallel to the stripe B, composed of two series of short lines, *c c c*, &c., parallel to each other and diagonal to the stripe B, arranged in rows, substantially as shown in the accompanying drawing.

I claim—

The design for ornamenting cloth, consisting of the parallel stripes B and C, the stripe B being composed of parallel straight lines *b b* and of parallel waved lines *d d*, and the stripe C of the series of short diagonal lines *c c* arranged in rows, substantially as shown.

JULIAN E. CAREY.
