

DESIGN FOR A RUG.

Design No. 16,147, dated July 7, 1885.

UNITED STATES PATENT OFFICE.

R. PAUL HEMMING, OF PHILADELPHIA, PENNSYLVANIA, ASSIGNOR TO
GEORGE W. ENNIS & CO., OF SAME PLACE.

DESIGN FOR A RUG.

SPECIFICATION forming part of Design No. 16,147, dated July 7, 1885.

Application filed June 1, 1885. Term of patent $3\frac{1}{2}$ years.

To all whom it may concern:

Be it known that I, RICHARD PAUL HEMMING, a citizen of the United States, residing at Philadelphia, in the county of Philadelphia and State of Pennsylvania, have invented and produced a new and original Design for a Rug; and I do hereby declare that the photographic print accompanying this specification conveys to any one skilled in the art a clear understanding of the same, and is sufficient to enable such persons to use my invention.

The leading features of my design consist in a triple-panel center. The middle panel is ornamented with a floral design, the end panels a floral design on a mosaic ground. At the bottom of the middle panel is a long narrow panel ornamented by a floral design. The panels are divided by a narrow border put together in form of a rustic frame, the center panel having braces at the lower corners.

The whole is surrounded by a border having a mosaicground, as shown in the photographic print accompanying this specification.

The photographic print illustrates and represents one half of the design or rug. The other half described, but not shown, is exactly like it.

What I claim as my invention is—

The design for a rug, consisting of a triple panel center; the middle panel representing a floral ornamentation, the end panels a floral design on a mosaic ground, a long narrow panel below the center panel having a floral ornamentation, the whole surrounded by borders representing a rustic frame, as shown and described.

R. PAUL HEMMING.
