UNITED STATES PATENT OFFICE.

JULIUS PEGEL, OF CAMDEN, NEW JERSEY, ASSIGNOR TO JOHN BROMLEY & SONS, OF PHILADELPHIA, PENNSYLVANIA.

DESIGN FOR A RUG.

SPECIFICATION forming part of Design No. 17,100, dated February 8, 1887.

Application filed January 5, 1887. Serial No. 223,491. Term of patent 3½ years.

To all whom it may concern:

Be it known that I, JULIUS PEGEL, a subject of the Emperor of Germany, residing at Camden, in the county of Camden and State of New Jersey, have invented and produced a new and original Design for a Rug; and I do hereby declare that the photographic print accompanying this specification conveys to any one skilled in the art a clear understanding of the same, and is sufficient to enable such person to use my invention.

The leading features of my design consist of a center panel outlined to form an oval by star-shaped flowers. From the bottom of the oval is represented as growing a mass of flowers and variegated-colored leaves. At each of the upper corners is represented a floral scroll. The whole is surrounded by a narrow border, A, and at parts by a wider border, B, and an inner border, C, as shown.

The photographic print shows only three-fourths of the full design or rug. The right-hand end, or the part not shown, is exactly like the left-hand end, that is shown.

What I claim as my invention is--

The design for a rug, consisting of a center panel outlined to form an oval by star-shaped flowers, from the bottom of which oval is represented as growing a mass of flowers and variegated-colored leaves, and at each of the upper corners is represented a floral scroll, the whole surrounded by a narrow border, A, and at parts by a wider border, B, and an inner border, C, as shown.

JULIUS PEGEL.
