UNITED STATES PATENT OFFICE.

ARCHIBALD BANNATYNE, OF WATERBURY, CONNECTICUT, ASSIGNOR TO
THE WATERBURY CLOCK COMPANY, OF SAME PLACE.

DESIGN FOR A CLOCK-DIAL.

SPECIFICATION forming part of Design No. 18,299, dated May 8, 1888.

Application filed May 3, 1887. Serial No. 237,014. Term of patent 7 years.

To all whom it may concern:

Be it known that I, ARCHIBALD BANNATYNE, residing at Waterbury, in the county of New Haven and State of Connecticut, have invented and produced a new and original Design for Clock-Dials; and I do declare the following to be a full, clear, and exact description of the same, reference being had to the accompanying drawing, which forms a part of this specification.

The accompanying drawing is a view in front elevation of a clock provided with a dial of my design.

The leading feature of my design is a clock-dial having upon its face the representation of a washer-woman engaged in washing clothes. The washer-woman B is shown at one side of the picture. She is seen in profile, and wears a cap or turban, E. She stands behind a wash-bench, D, which supports a wash-tub, C, containing a wash-board, G, on which is a garment, F, which she holds in both of her hands.

Opposite from her, and on the opposite side of the picture, is seen a clothes-line, K, from which assorted garments H are hung. A cake of soap, J, is seen on the wash-bench. A house, L, is seen behind the washer-woman, and forms a foil for her.

I claim—

The design for a clock-dial herein shown and described, the same consisting of a clock-dial having upon its face the representation of a washer-woman seen in profile at one side of the picture, a wash-bench, a wash-tub supported on such bench, a wash-board in the tub, a clothes-line, clothes hung out on such line, and a house.

In testimony whereof I have signed this specification in the presence of two subscribing witnesses.

ARCHIBALD BANNATYNE.
