UNITED STATES PATENT OFFICE.

EDWIN B. STIMPSON, OF BROOKLYN, NEW YORK.

DESIGN FOR A STRAP.

SPECIFICATION forming part of Design No. 18,812, dated December 11, 1888.

Application filed October 30, 1888. Serial No. 289,564. Term of patent 7 years.

To all whom it may concern:

Be it know that I, EDWIN B. STIMPSON, of Brooklyn, in the county of Kings and State of New York, have invented and produced a new and original Design for a Strap, of which the following is a specification.

I will describe my design for straps in detail, and then point out the novel features in a claim.

10 The accompanying drawing illustrates a strap showing my design.

15 This strap has substantially parallel side edges. Near each of these edges, and extending in the direction of the length of the strap, is delineated a band, *a*. The bands are composed of approximately parallel straight lines *b*, extending at right angles to the direction of the lengths of the bands. Intermediate of the

bands *a*, and also extending in the direction of the length of the strap, are delineated the zigzag lines *c*. As shown, the inner points or angles of the zigzags of the lines *c* meet each other. Spaces intervene between the bands *a* and the zigzag lines *c*. 20

What I claim as my design is— 25

The design for a strap having approximately parallel side edges and a surface ornamentation consisting of the bands *a*, composed of approximately parallel lines *d* and the intermediate zigzag lines *c*, spaces intervening between the bands *a* and the zigzag lines *c*, substantially as shown. 30

EDWIN B. STIMPSON.
