UNITED STATES PATENT OFFICE.

JAMES G. WILSON, OF NEW YORK, N. Y.

DESIGN FOR A CHAIR.

SPECIFICATION forming part of Design No. 20,575, dated March 10, 1891.

Application filed February 10, 1891. Serial No. 381,000. Term of patent 7 years.

To all whom it may concern:

Be it known that I, JAMES G. WILSON, a subject of the Queen of Great Britain, residing at New York, in the county of New York and State of New York, have invented and produced a new and original Design for Gentlemen's Chairs; and I do hereby declare the following to be a full, clear, and exact description of the invention, such as will enable others skilled in the art to which it appertains to make and use the same.

I will refer to the accompanying drawings, which form a part of this specification, and in which—

Figure 1 is a perspective of a chair, showing my design; and Fig. 2, a side elevation of such chair.

Similar letters denote like parts in both figures.

This chair is especially intended to be used

by gentlemen, the sitter facing the elbow-rest with his legs astride the base of said rest.

The leading features of my design consist in the laterally-overhanging sides of the elbow-rest and in the horizontal extensions of the seat beneath said sides.

A is the seat of the chair; B, the elbow-rest; C, the overhanging sides, and D the horizontal extensions of the seat beneath said sides.

What I claim is—

The design for a gentleman's chair, as shown.

In testimony whereof I affix my signature in presence of two witnesses.

JAMES G. WILSON.

Witnesses:

WM. A. ROEDEL,

W. A. MATTHEWS.
