(57) CLAIM

The ornamental design for a display screen with a graphical user interface, as shown and described.

See application file for complete search history.

DESCRIPTION

The FIGURE is a front view of a display screen with a graphical user interface showing our new design. The broken lines showing a display screen and elements of the graphical user interface illustrate portions of the article, and form no part of the claimed design. The stippling shown in the FIGURE does not form a part of the claimed design.
