(57) CLAIM

The ornamental design for a sports ball with free-flowing appendages, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a sports ball with free-flowing appendages.
FIG. 2 is a perspective view of the sports ball with free-flowing appendages while in a flight state.
FIG. 3 is a perspective view of the sports ball without free-flowing appendages; and,
FIG. 4 is a perspective view of a free-flowing appendage shown in an unattached position, shown separately for ease of illustration.
The subject ornamental design is for a sports ball (see FIG. 1) having a solid body with numerous apertures for threading free-flowing appendages therethrough. The solid body includes pairs of apertures on the surface of the ball body that form a tunnel through to exactly one counterpart aperture.
The broken lines in the drawings depict environmental subject matter and form no part of the claimed design.
