

(12) **United States Design Patent**
Hausammann et al.

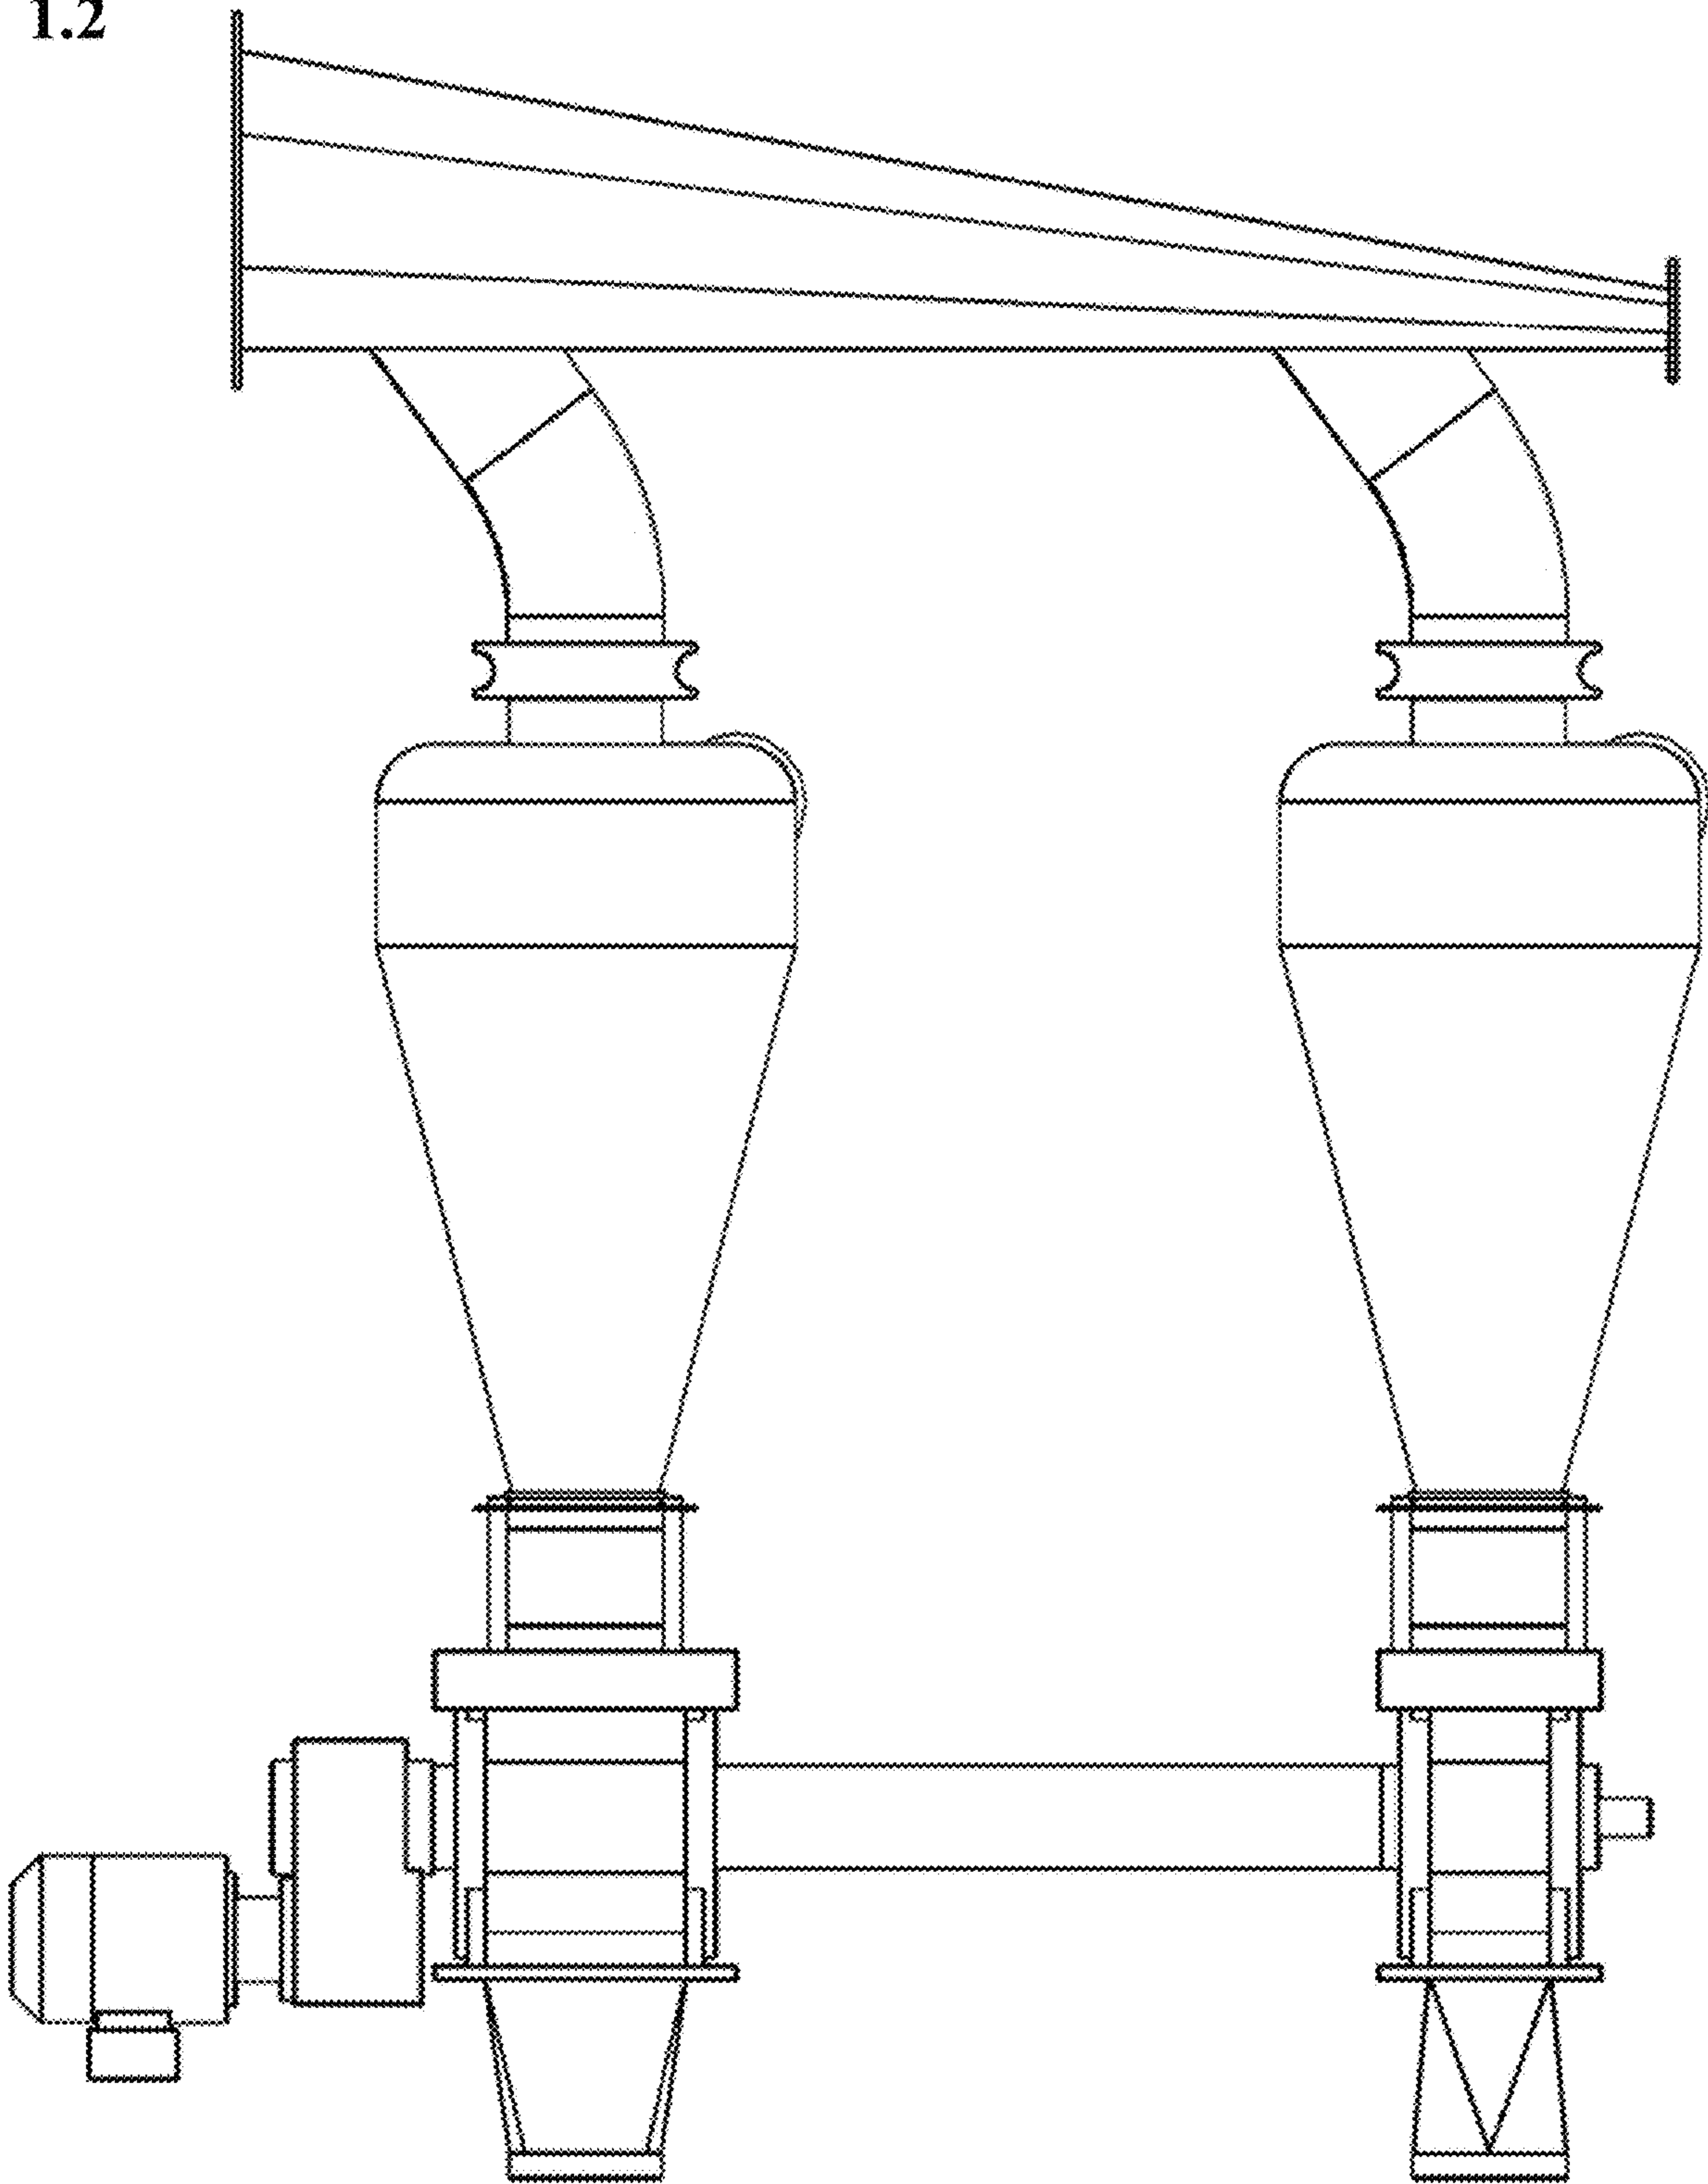

(45) **Date of Patent:** ** **Feb. 6, 2024**

A technical line drawing of a mechanical assembly. It features two vertical, conical components, possibly funnels or hoppers, mounted on a base. A horizontal beam or pipe connects the two components. The drawing is a perspective view, showing the top and side of the components. The components have a flared top and a narrower bottom section. The horizontal beam is positioned above the components. The drawing is a black and white line drawing, typical of technical manuals.
