(57) CLAIM

The ornamental design for a kitchen appliance with two-dimensional applied surface graphic, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing executed in color. Copies of this patent with color drawings will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a perspective view of a kitchen appliance with two-dimensional applied surface graphic according to the design;

FIG. 2 is a front elevation view thereof, a back elevation view showing no claimed portion thereof;

FIG. 3 is a right elevation view thereof;

FIG. 4 is a left side elevation view thereof;

FIG. 5 is a top plan view thereof; and,

FIG. 6 is a bottom plan view thereof.

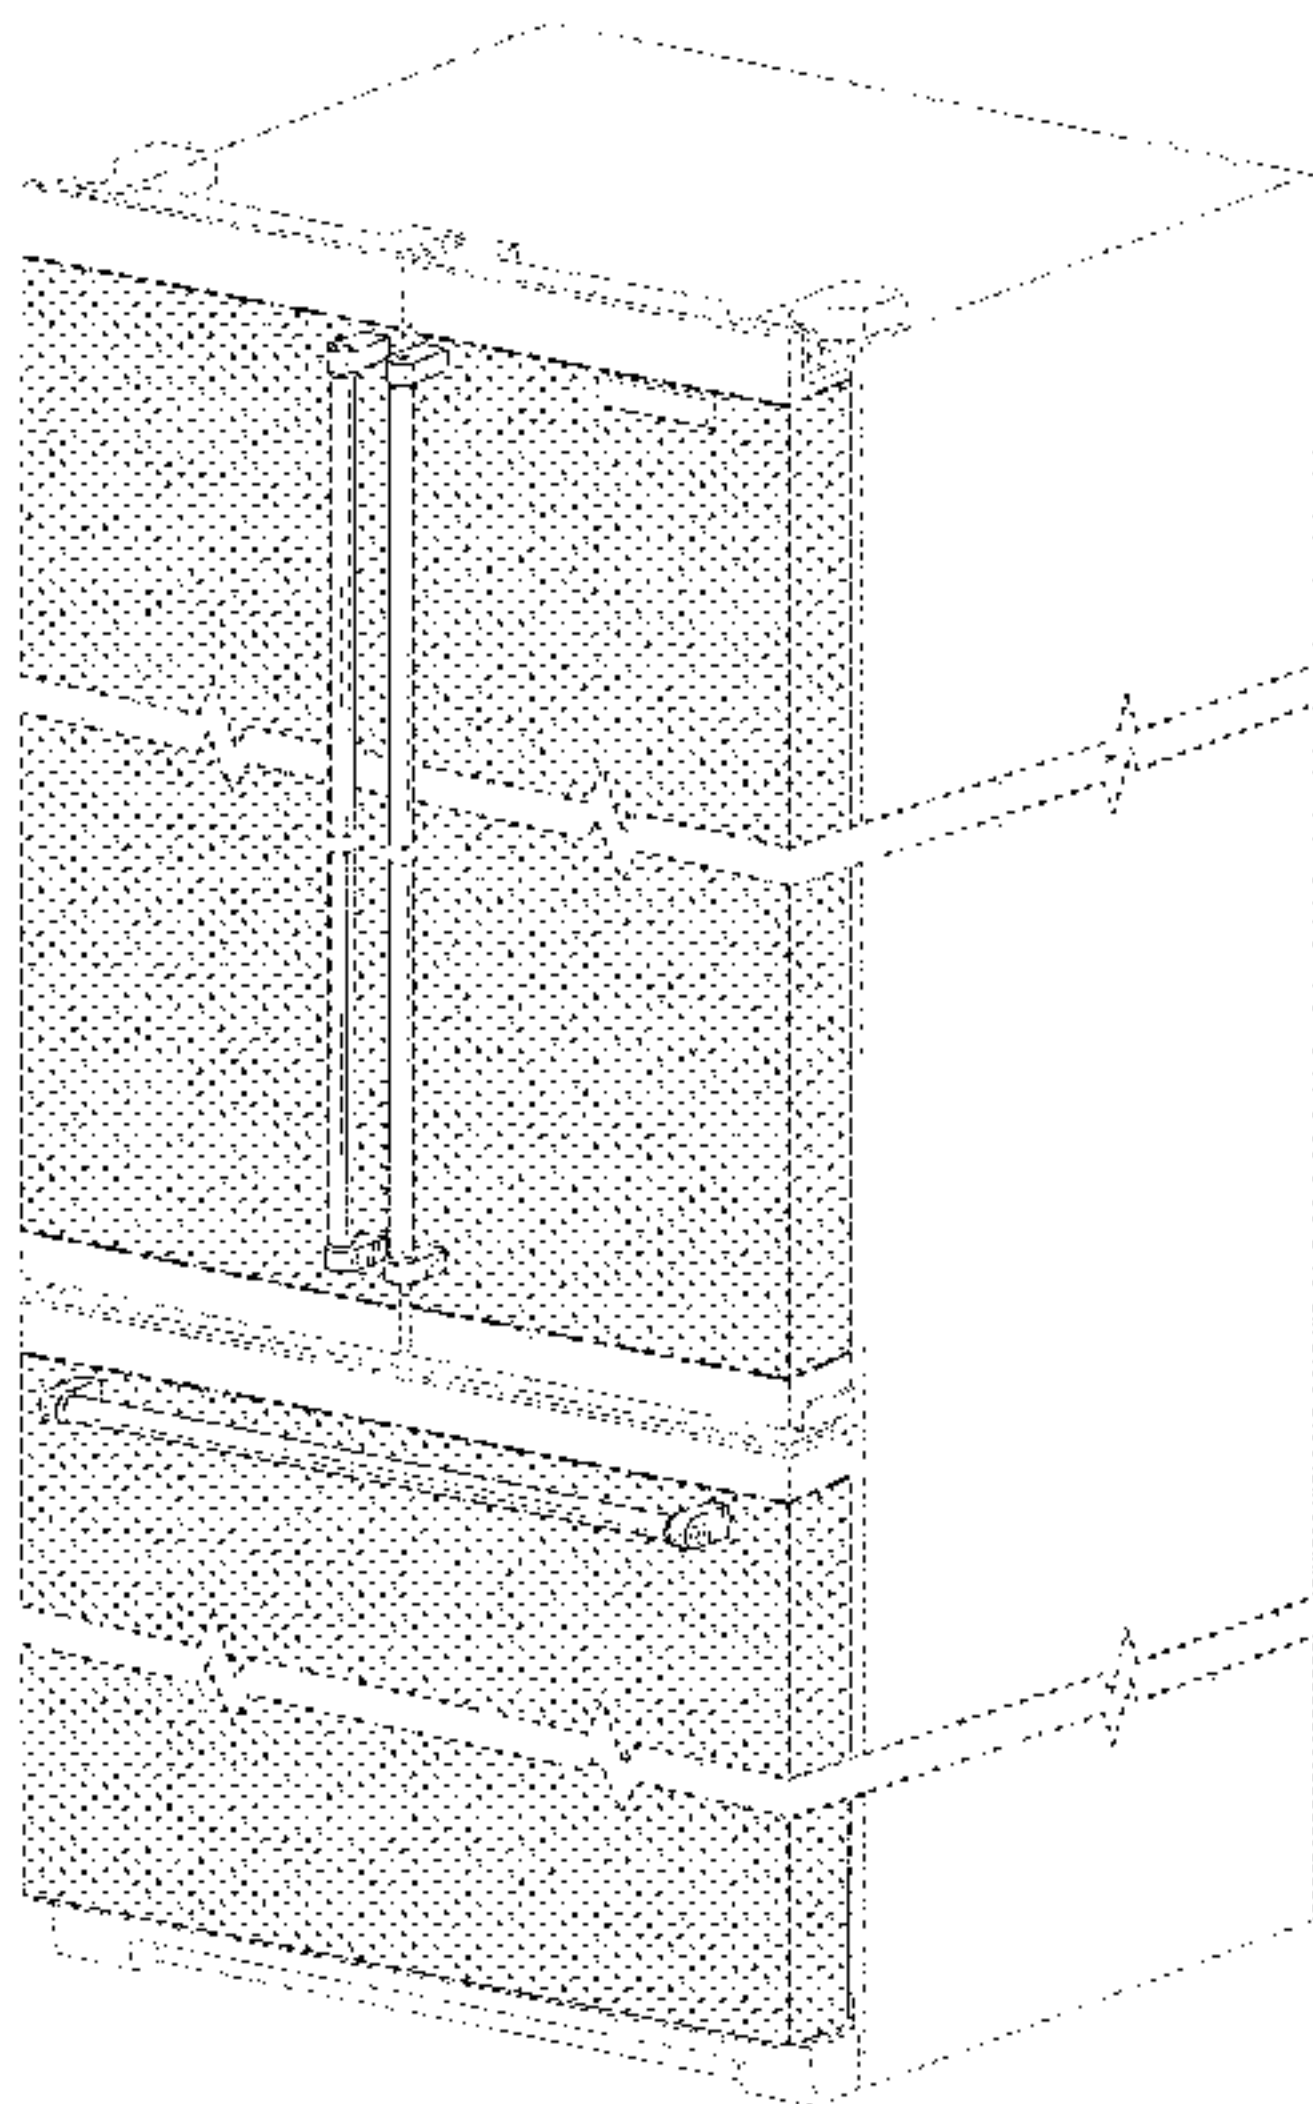

The portions of the article shown in even broken line form no part of the claimed design.

Dash-dot-dash broken lines adjacent un-shaded areas represent bounds of the claimed design and form no part of the claimed design themselves.

The pairs of closely adjacent, spaced jagged broken lines in the drawings form no part of the claimed design and the portions between such pairs of jagged broken lines are broken away such that the dimension between such portions forms no part of the claimed design. Portions of the design that may be visible between the jagged lines have been removed for clarity.

1 Claim, 5 Drawing Sheets
