CLAIM

The ornamental design for a handle for a steerable interventional device, as shown and described.

DESCRIPTION

1. Handle for a steerable interventional device

1.1 : Perspective

1.2 : Front

1.3 : Right

1.4 : Back

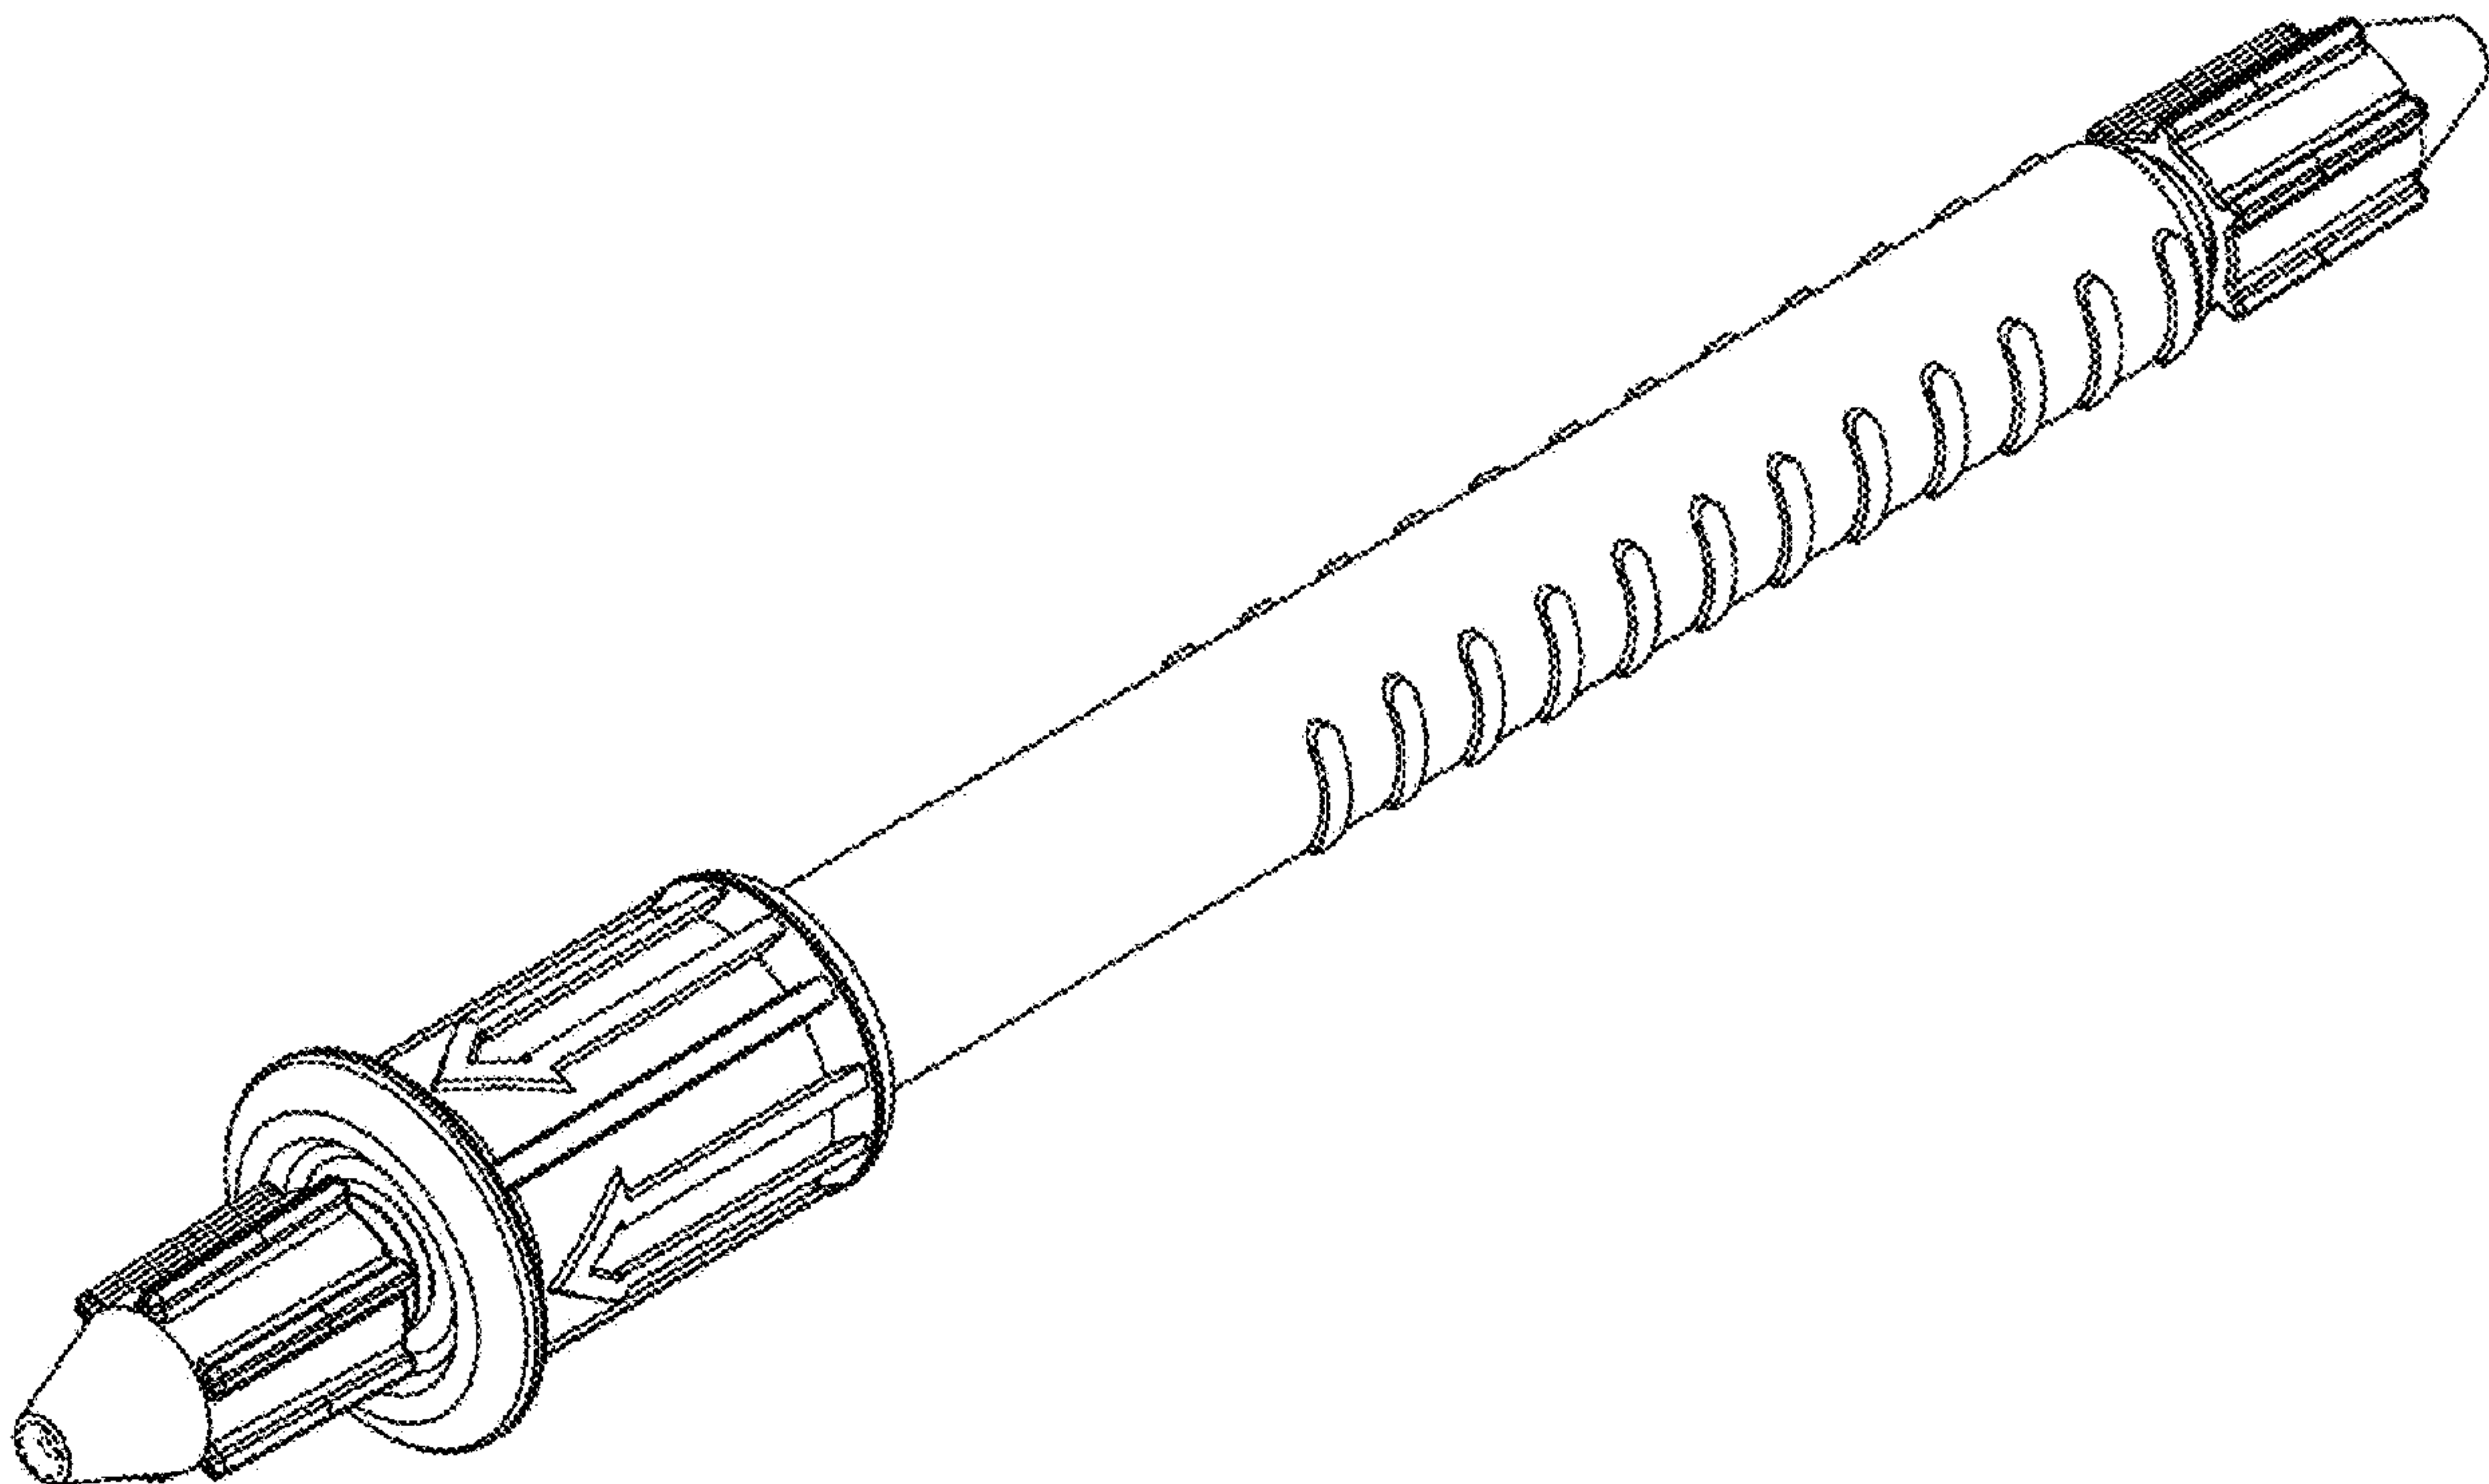

1.5 : Left

1.6 : Top

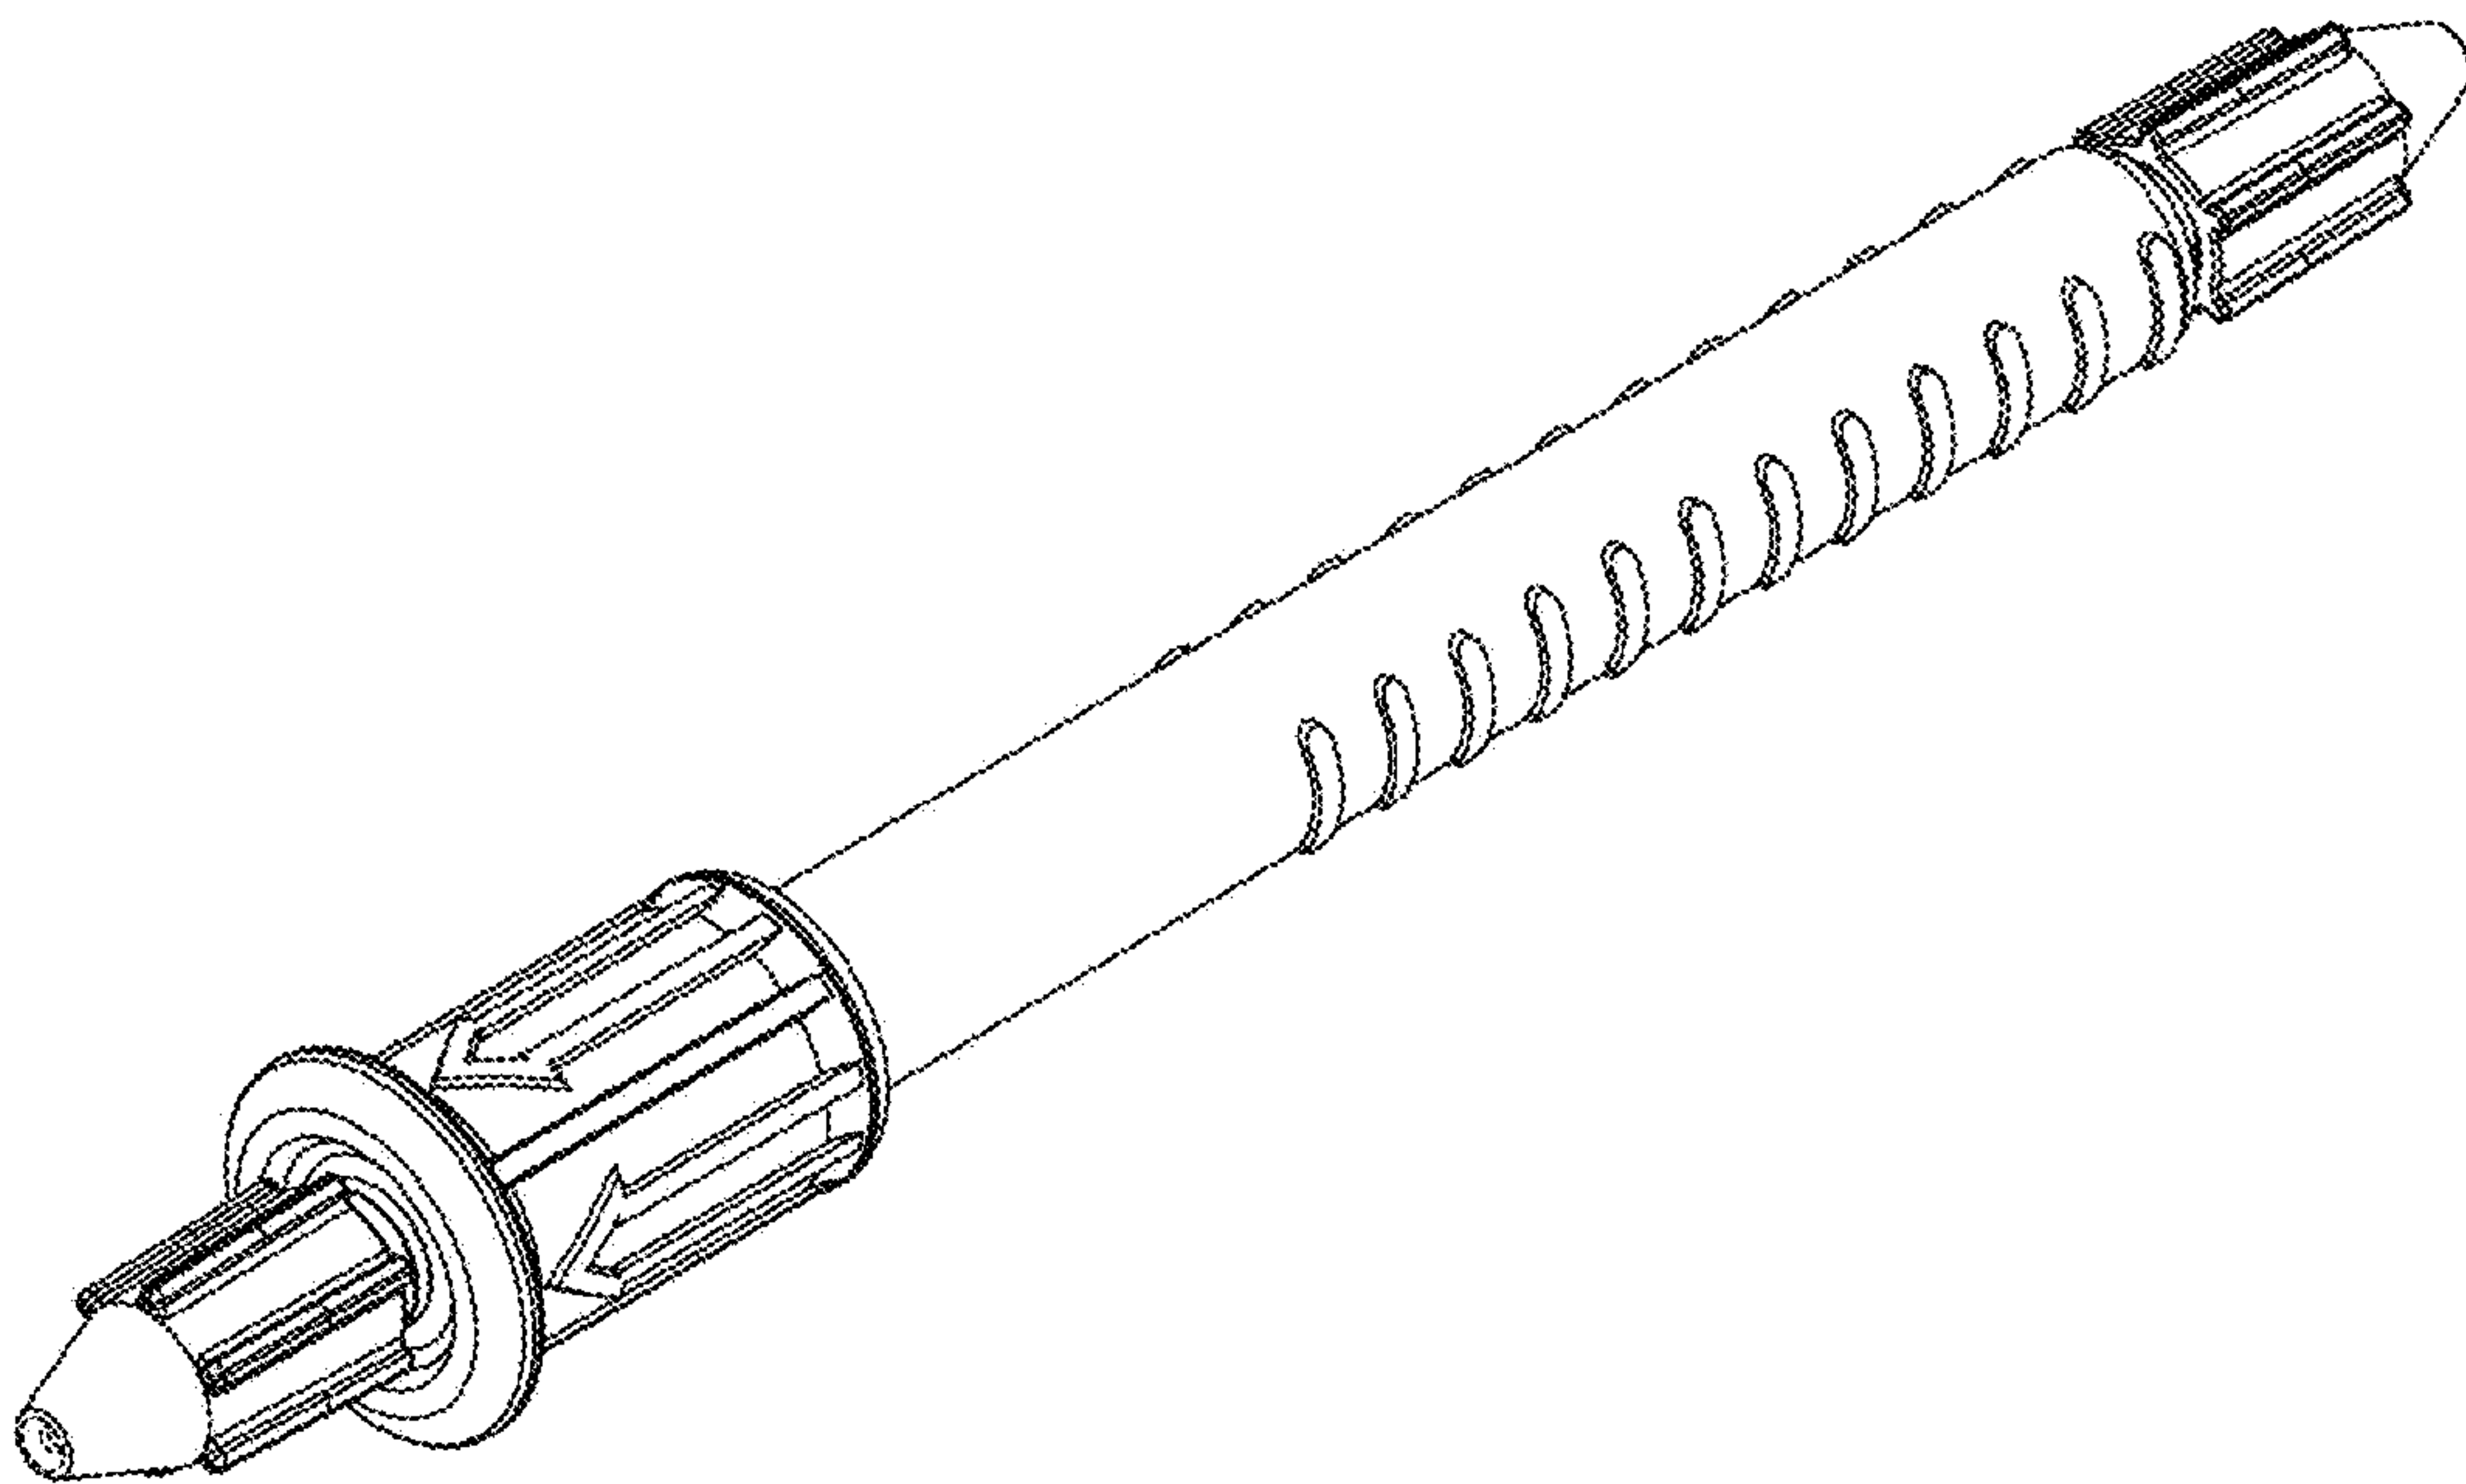

1.7 : Bottom

The title of the design is “handle for a steerable interventional device” which is intended for medical use; The design is characterized in its shape; The perspective view of the design is designated as the figure that best illustrates the characterizing feature of the design; The broken lines in the drawings depict unclaimed portions of the handle for a steerable interventional device only and form no part of the claimed design.
