DESCRIPTION

FIG. 1 is a left side view of a pipe splitter, with a sharp edge  
of a splitter blade shown at the left side of the blade. A call-out  
in alternating long and short dash lines is provided to show  
the outer limits of FIG. 9.

FIG. 2 is a right side view of thereof, with the sharp edge of  
the splitter blade shown at the right.

FIG. 3 is a front view thereof, with the sharp edge facing out  
of the page.

FIG. 4 is a back view thereof.

FIG. 5 is a top view thereof.

FIG. 6 is a bottom view thereof. In the bottom view, no  
claimed surface is visible.

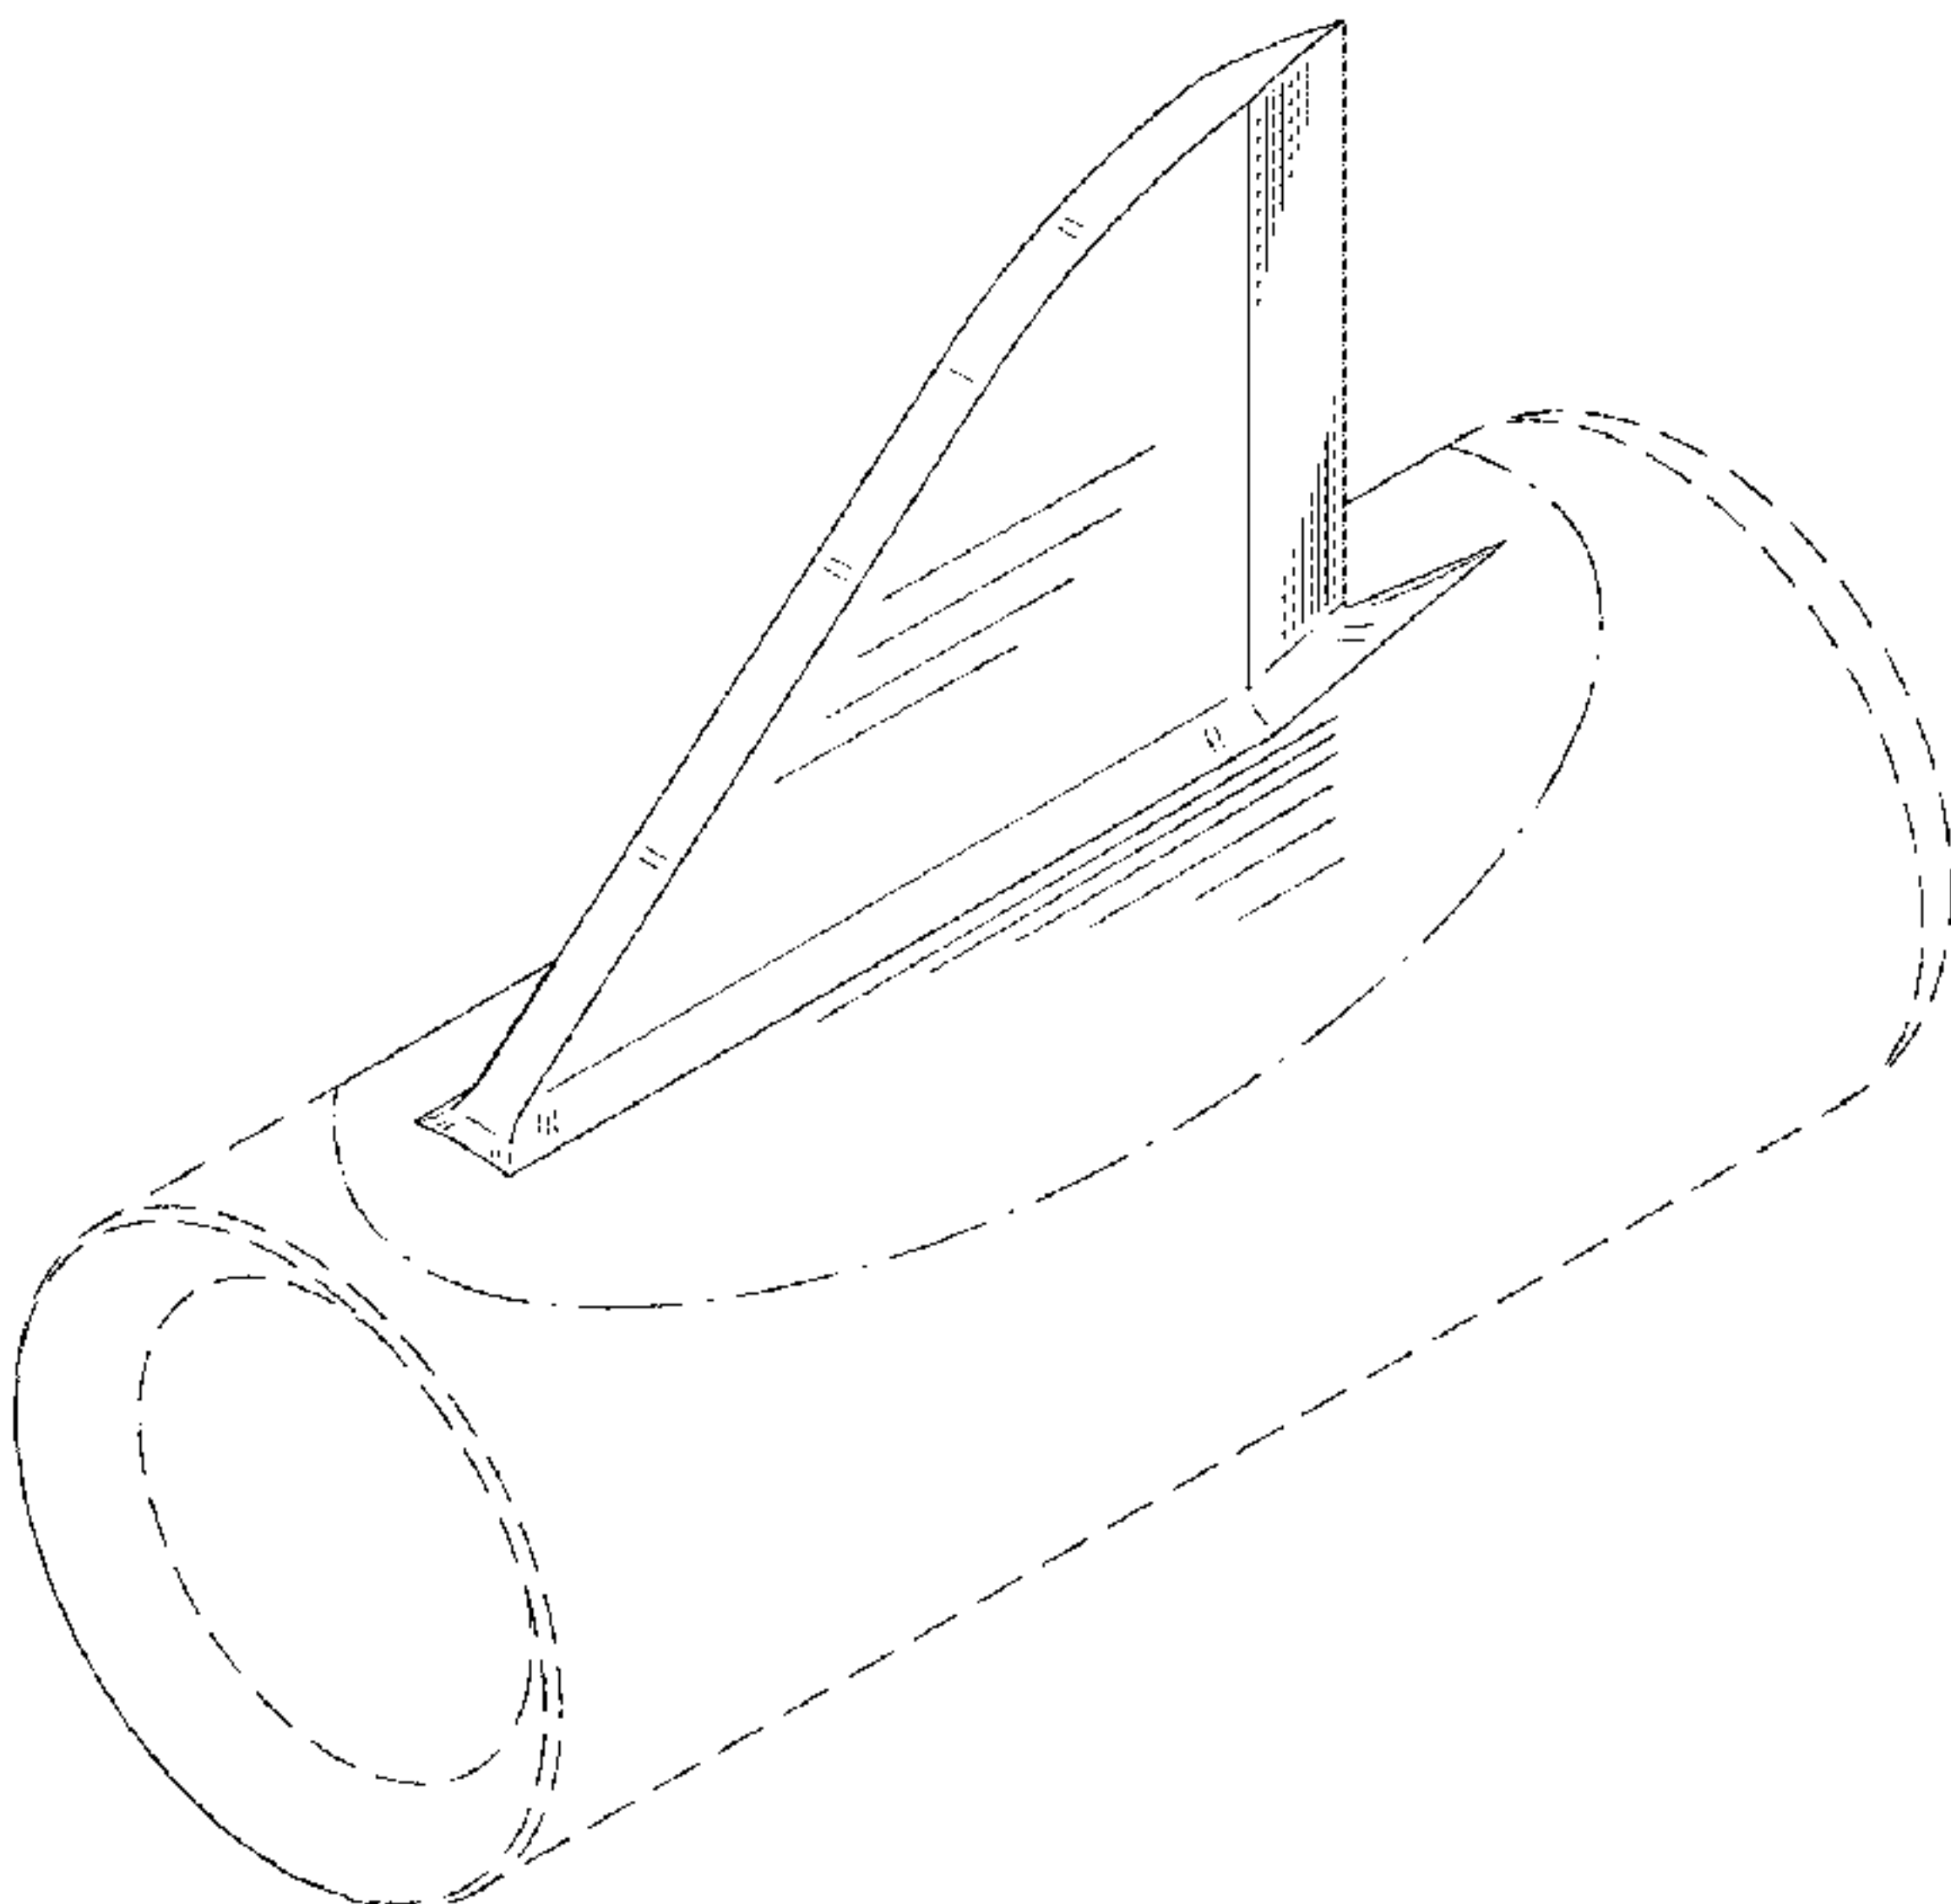

FIG. 7 is a top front left perspective view thereof.

FIG. 8 is a top back right perspective view thereof; and,

FIG. 9 is a left side view of the pipe splitter as shown in FIG.  
1. The alternating long and short dashed line about the  
outside of the figure indicates the metes and bounds of the  
view, as shown in FIG. 1.

The broken lines shown in the figures are for the purpose of  
illustrating portions of the pipe splitter and form no part of the  
claimed design. The line with alternating dot-dash is a  
boundary line denoting the edges of the claimed design.  
Lines which do not connect to adjacent lines and stippling  
are provided to show contour and are not a discrete surface  
feature.

1 Claim, 9 Drawing Sheets
