(57) CLAIM

The ornamental design for a tire, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a tire taken generally from the front and a first side of the tire;

FIG. 2 is a front view thereof;

FIG. 3 is a right side view thereof; the left side view being identical thereto;

FIG. 4 is an enlarged partial, perspective view taken generally from the front and the first side thereof taken along line 4 of FIG. 1;

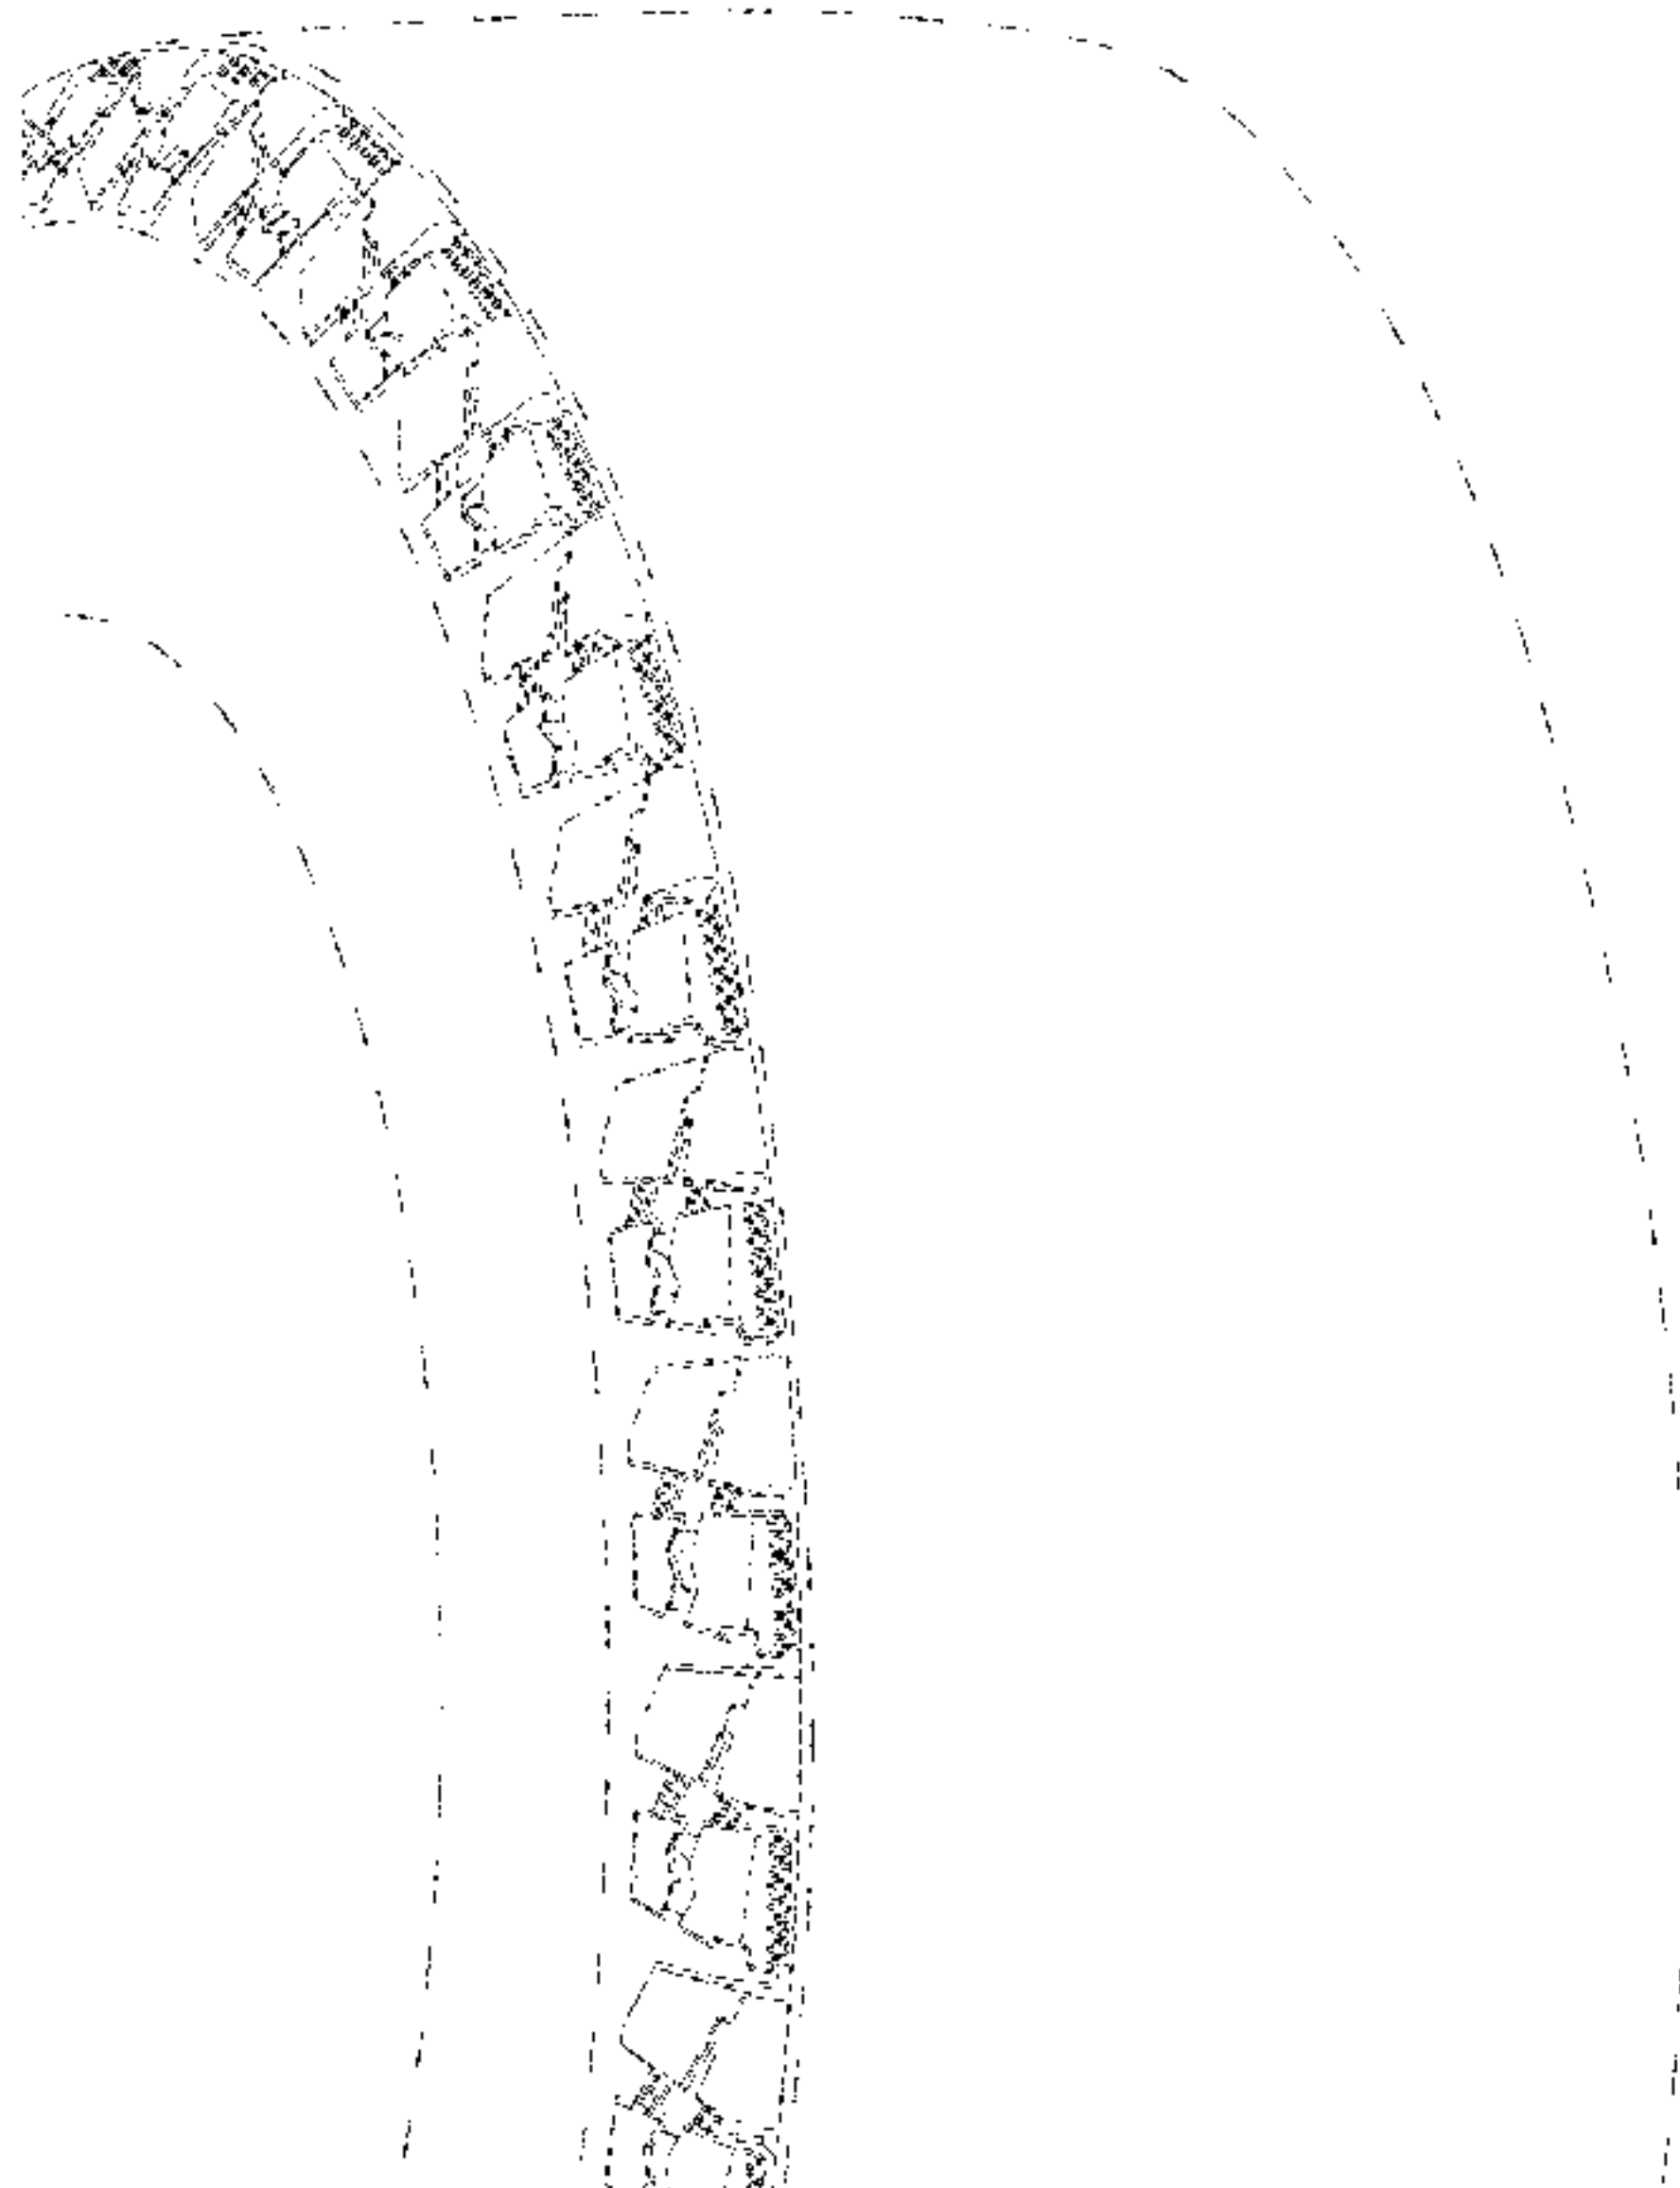

FIG. 5 is an enlarged, partial front view thereof taken along line 5-5 of FIG. 2; and,

FIG. 6 is an enlarged, partial right side view thereof taken along line 6 of FIG. 3.

The broken lines and the regions between the broken lines defining the inner beads and the first or second sidewalls, and also defining the road contacting surfaces, depict subject matter that forms no part of the claimed tire, and is included for the purpose of illustrating the full tire. likewise, the tire interior forms no part of the claim. The tread pattern is understood to repeat throughout the circumference of the tire. The other side views of each embodiment are identical to the illustrated side views.

The dashed broken lines indicating an enlargement portion of the design form no part of the claimed design.

1 Claim, 6 Drawing Sheets
