CLAIM

The ornamental design for a detachable top of a medical line organizer, as shown and described.

DESCRIPTION

FIG. 1 is a front, right isometric view of the detachable top of the medical line organizer, showing my new design; FIG. 2 is a front, left isometric view of the detachable top of the medical line organizer, showing my new design; FIG. 3 is a front elevational view of the detachable top of the medical line organizer of FIG. 1, the rear elevational view being a mirror image thereof; FIG. 4 is a right elevational view of the detachable top of the medical line organizer of FIG. 1, the left elevational view being a mirror image thereof; FIG. 5 is a left elevational view of the detachable top of the medical line organizer of FIG. 1, the left elevational view being a mirror image thereof; FIG. 6 is a top plan view of the detachable top of the medical line organizer of FIG. 1; FIG. 7 is a bottom plan view of the detachable top of the medical line organizer of FIG. 1; and, FIG. 8 is an isometric view of the detachable top of the medical line organizer and an exemplary stationary base decoupled from each other. Broken lines are used to illustrate portions of the detachable top of a medical line organizer. The other broken lines illustrate an exemplary environmental subject matter that form no part of the claimed design.
