(57) **CLAIM**

The ornamental design for a display panel with graphical user interface, as shown and described.

DESCRIPTION

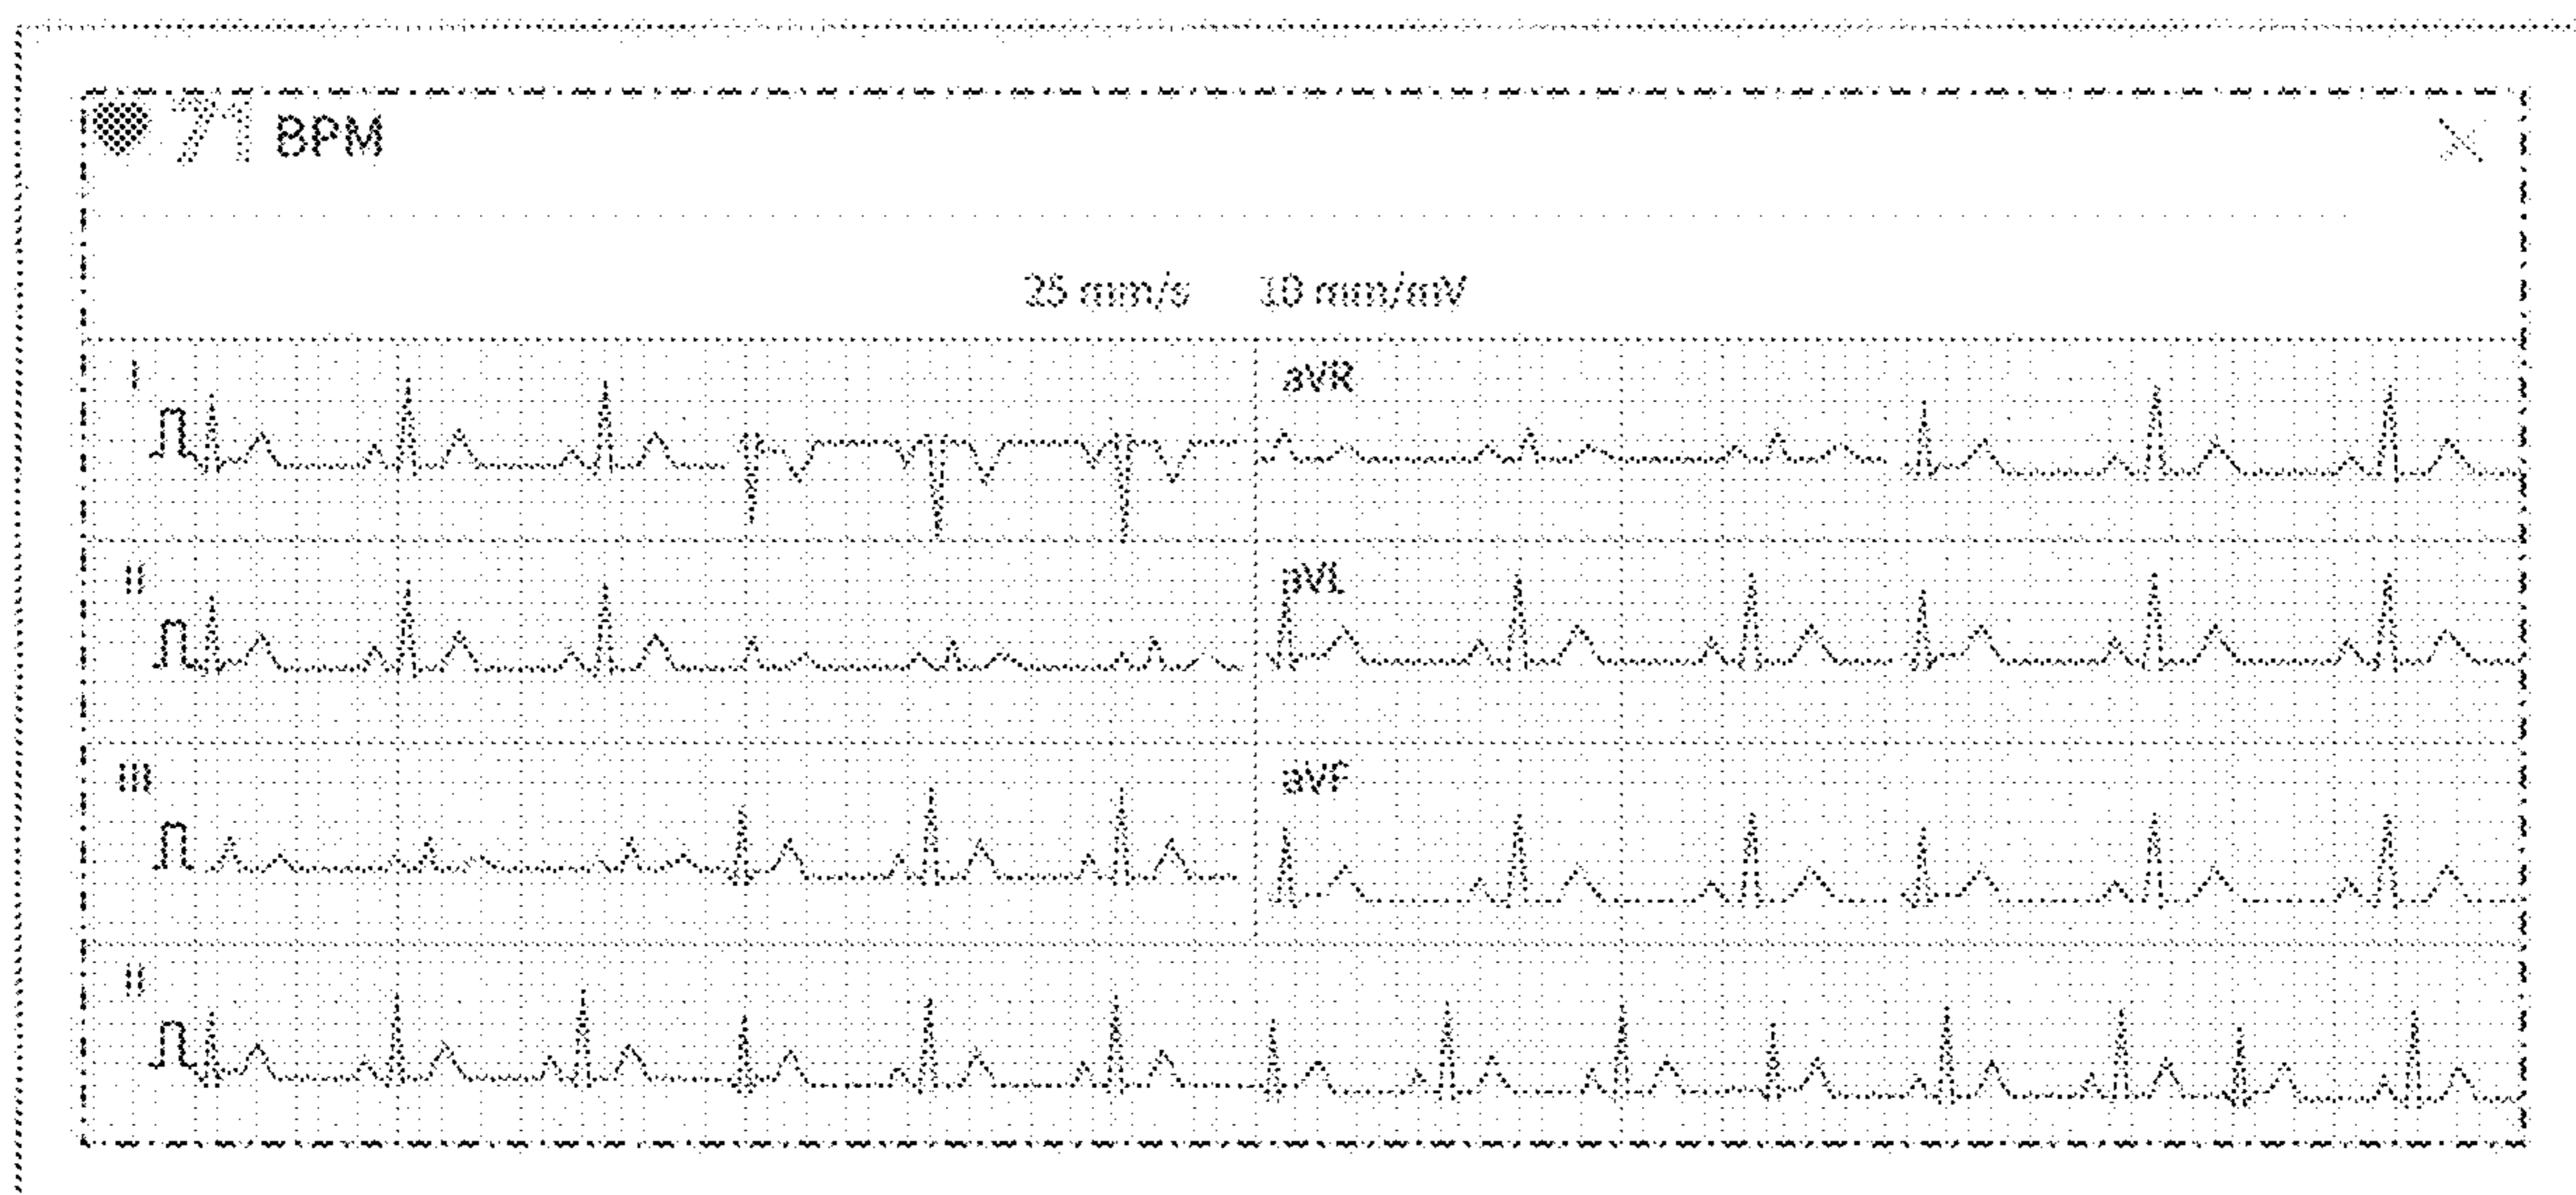

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

1. Display panel with graphical user interface

1.0 : Front

The outermost broken line illustrates a display panel and forms no part of the claimed design. The dot-dash broken lines in the reproduction represent boundaries of the claimed design and form no part thereof. All other broken lines in the reproduction depict portions of the graphical user interface that form no part of the claimed design.
