(57) **CLAIM**

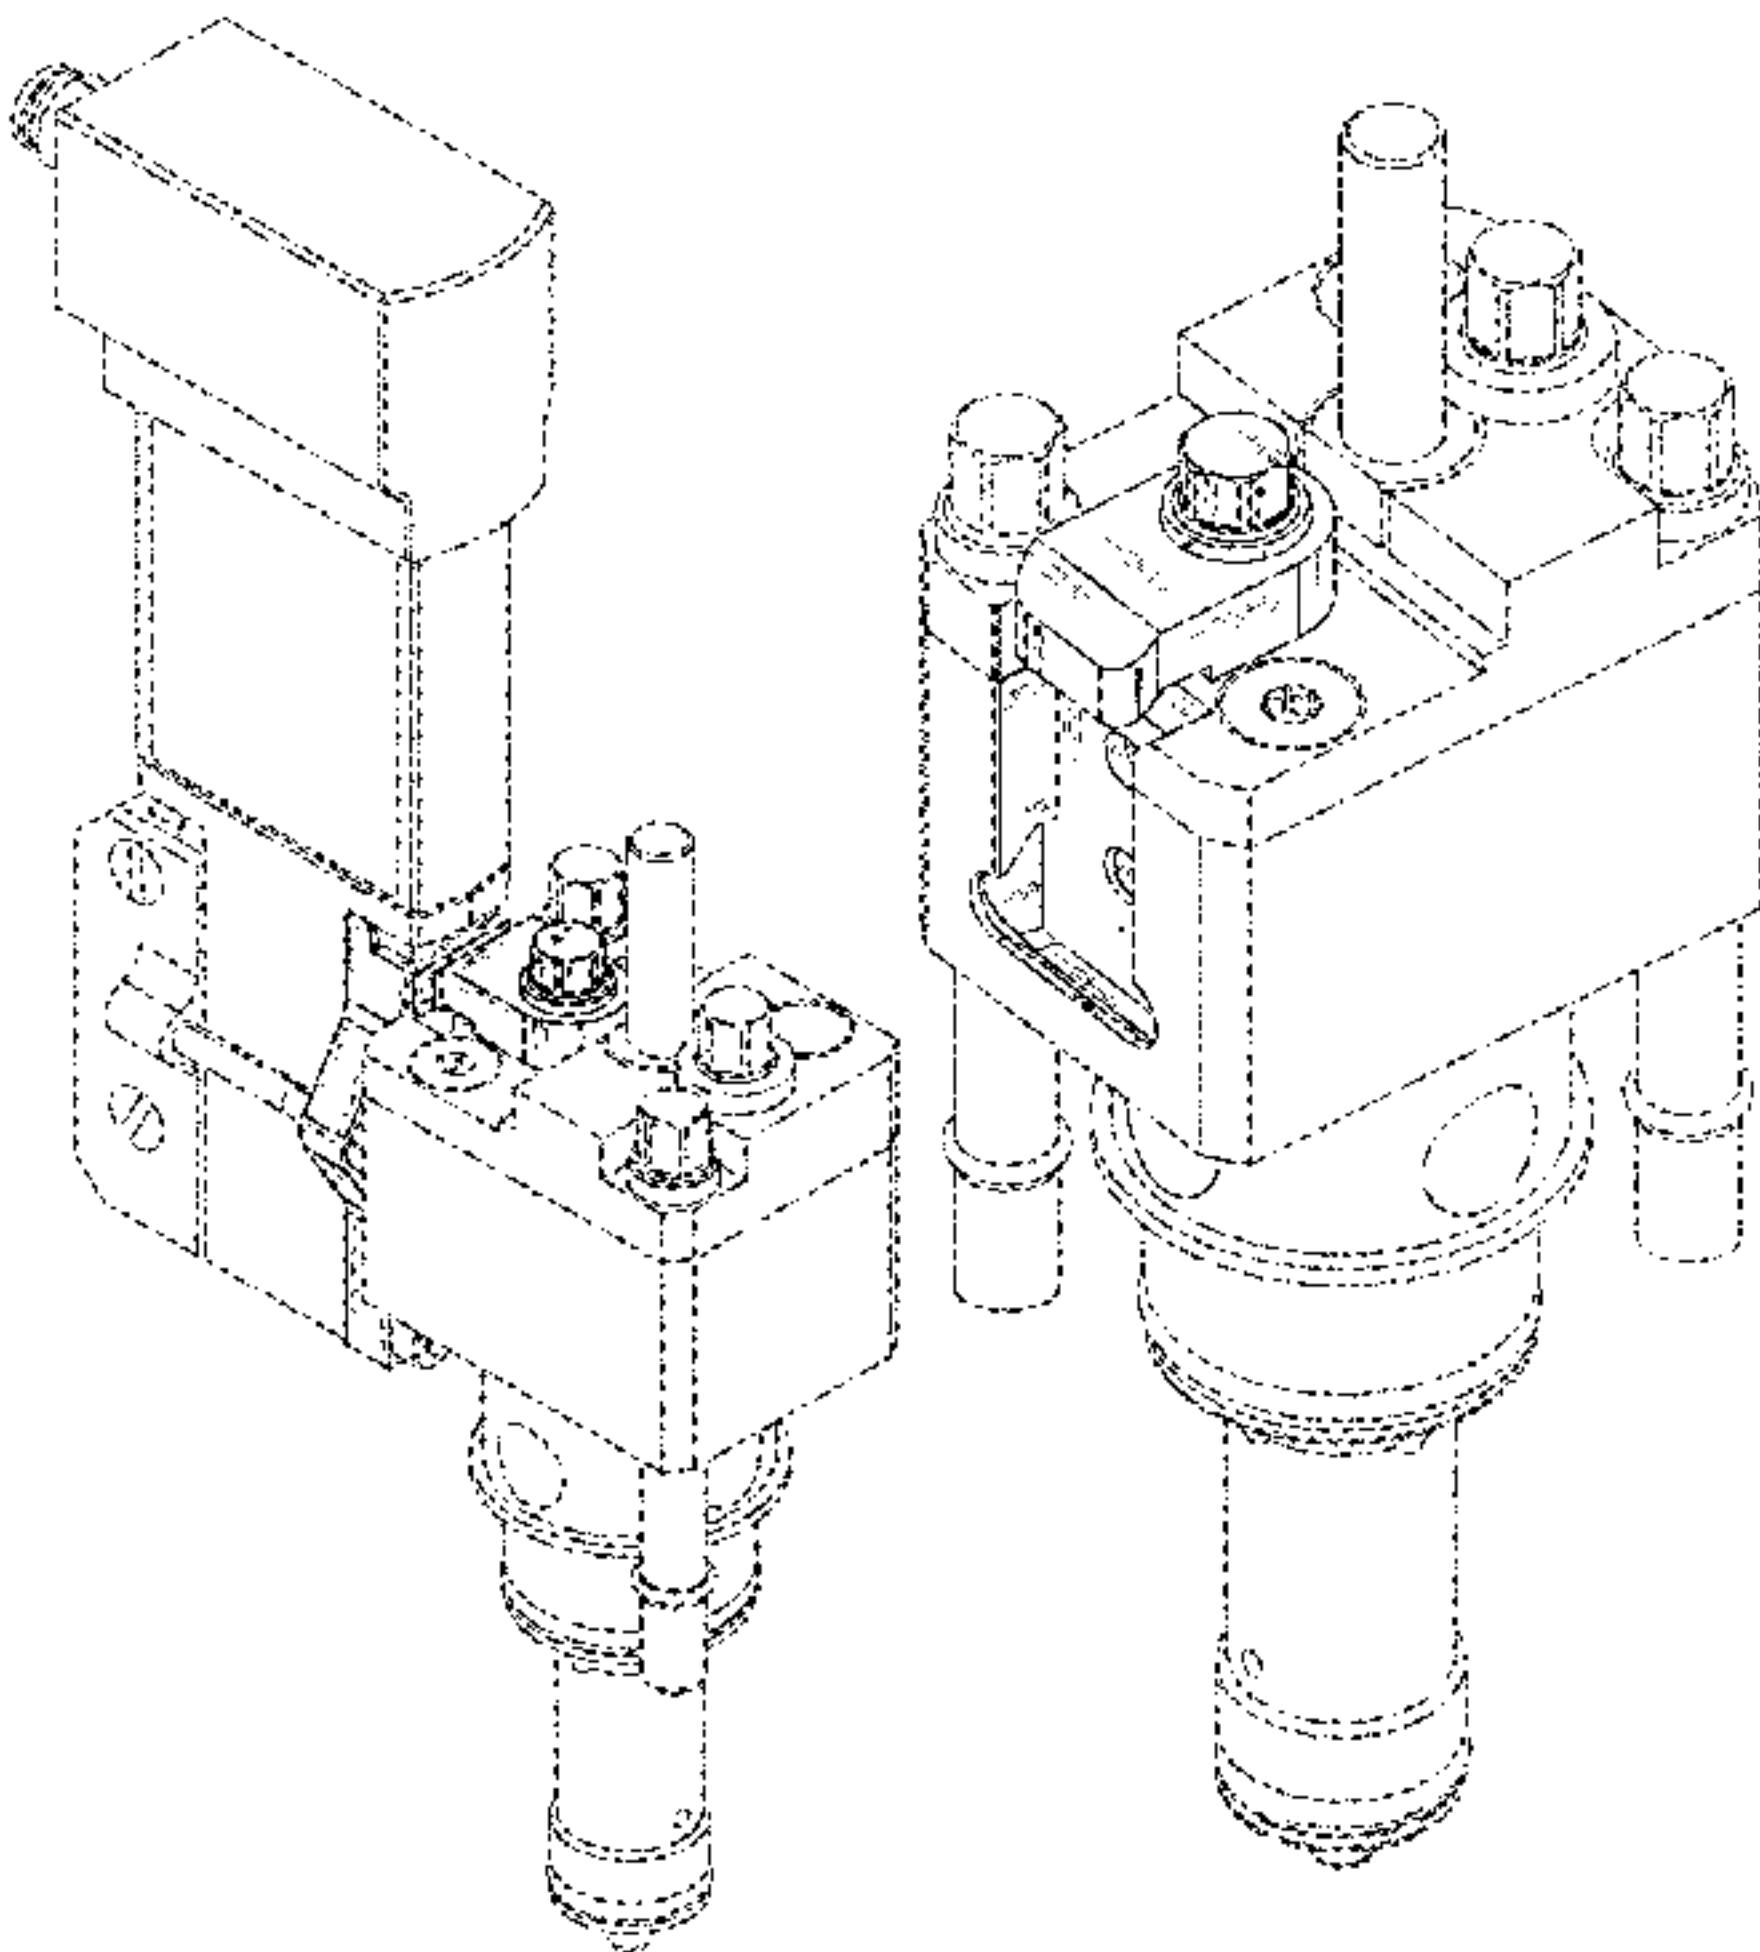

We claim the ornamental design for a connector for a material dispensing assembly, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a connector for a material dispensing assembly shown in a connected configuration; FIG. 2 is a front elevation view thereof; FIG. 3 is a back elevation view thereof; FIG. 4 is a left side elevation view thereof; FIG. 5 is a right side elevation view thereof; FIG. 6 is a top plan view thereof; FIG. 7 is a bottom plan view thereof; FIG. 8 is a perspective view of a first portion of the connector for a material dispensing assembly on a first portion of the material dispensing assembly shown in a disconnected configuration; FIG. 9 is a partial front elevation view thereof; FIG. 10 is a left side elevation view thereof; FIG. 11 is a right side elevation view thereof; FIG. 12 is a top plan view thereof; FIG. 13 is a partial perspective view thereof; FIG. 14 is another partial perspective view thereof; FIG. 15 is a partial perspective view of part of the portion shown in FIG. 8; FIG. 16 is another partial perspective view thereof; FIG. 17 is a perspective view of a second portion of the connector for a material dispensing assembly on a second portion of the material dispensing assembly shown in the disconnected configuration; FIG. 18 is a front elevation view thereof; FIG. 19 is a back elevation view thereof; FIG. 20 is a left elevation view thereof; FIG. 21 is a right elevation view thereof; FIG. 22 is a top plan view thereof; FIG. 23 is a bottom plan view thereof; FIG. 24 is an exploded perspective view of FIG. 17; FIG. 25 is another exploded perspective view thereof; FIG. 26 is an exploded left elevation view thereof; and, FIG. 27 is an exploded right elevation view thereof.

In the drawings, the broken line showing of the first and second portions of the material dispensing assembly is for the purpose of illustrating environmental structure of the connector for a material dispensing assembly and forms no part of the claim.

(Continued)

In FIGS. 9 and 13-16, the dashed-line bounding box defines the bounds of the claimed design and forms no part thereof.
