(57) **CLAIM**

The ornamental design for a display screen or portion thereof having a graphical user interface, as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material which is subject to copyright protection. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent file or records, but otherwise reserves all copyright rights whatsoever.

FIG. 1 is a front view of a first embodiment of a display screen or portion thereof having a graphical user interface; and,

FIG. 2 is a front view of a second embodiment of a display screen or portion thereof having a graphical user interface. The outermost dot-dashed broken lines depict the display screen or portion thereof and the bounds of the claim and form no part of the claimed design. The innermost dot-dashed broken lines depict boundaries of the claimed design and form no part of the claimed design. The remaining dashed broken lines and dot-dot broken lines depict portions of the graphical user interface that form no part of the claimed design.
