(57) CLAIM

The ornamental design for a display screen with transitional audio control graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image in a sequence for a display screen with transitional audio control graphical user interface;

FIG. 2 is a front view of a second image thereof;

FIG. 3 is a front view of a third image thereof;

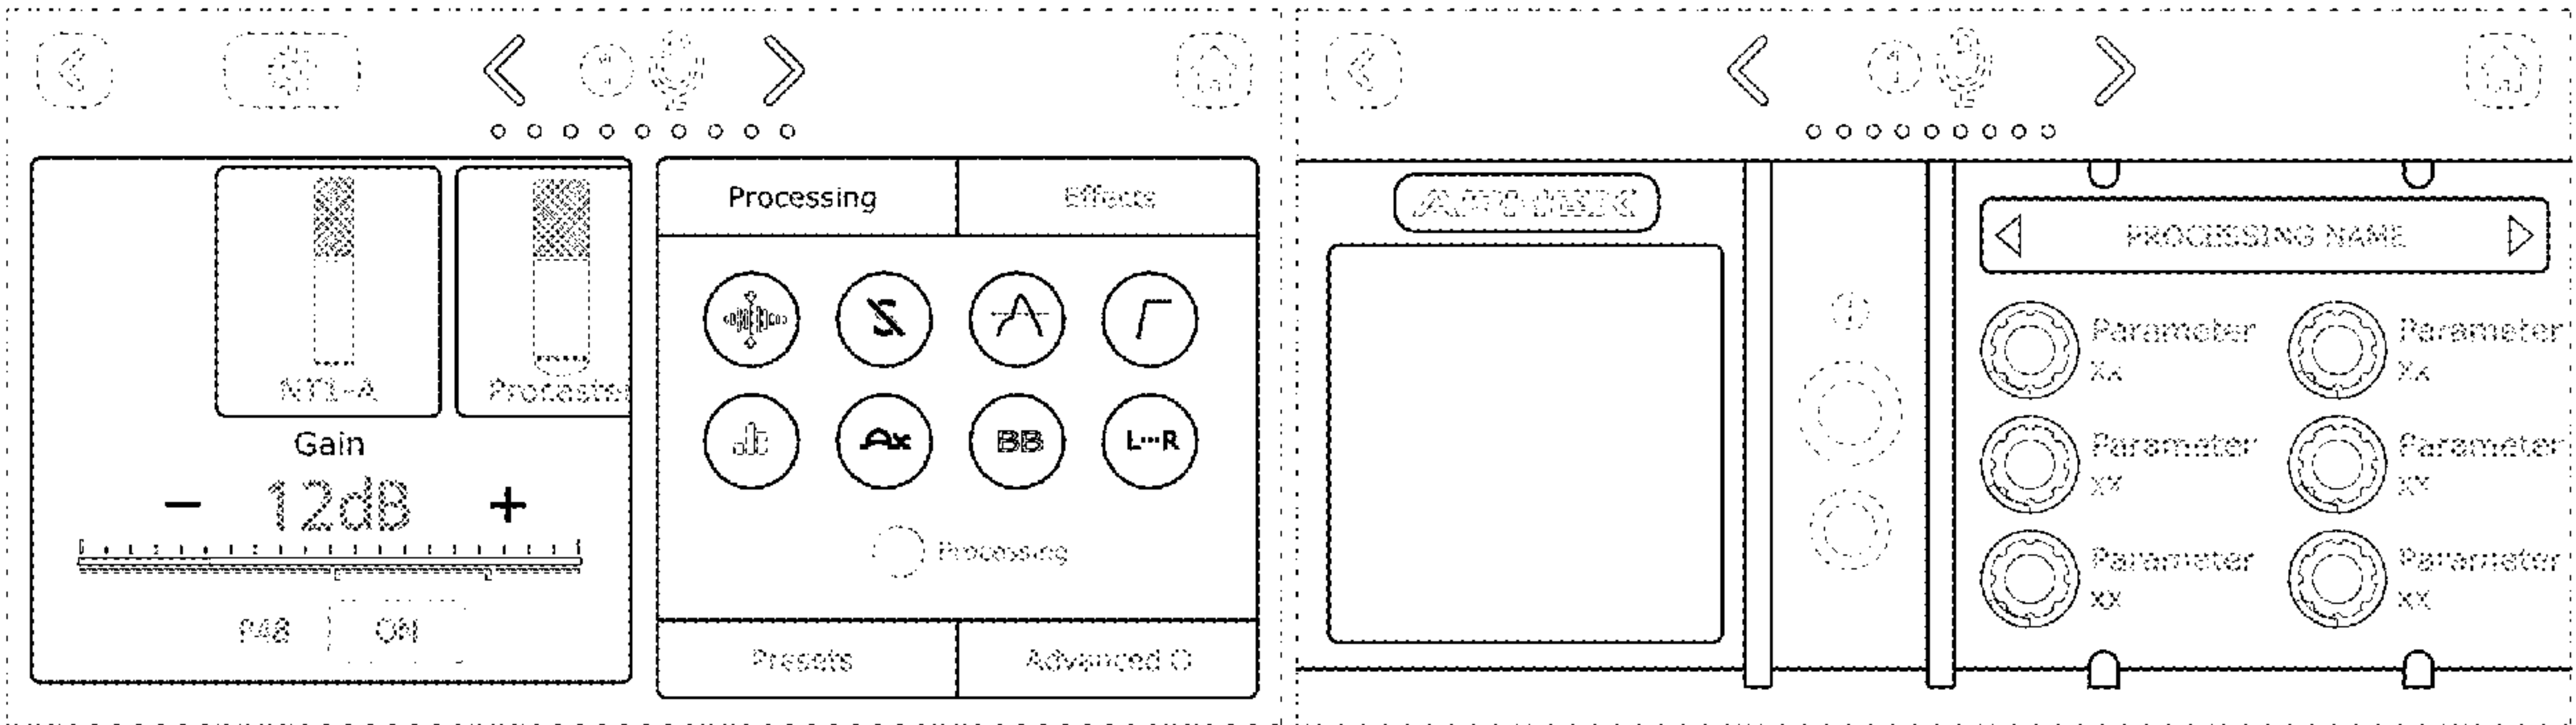

FIG. 4 is a front view of a fourth image thereof;

FIG. 5 is a front view of a fifth image thereof; and

FIG. 6 is a front view of a sixth image thereof.

The outermost broken line rectangle showing a display screen, as well as the broken lines showing text and other features are environmental only and form no part of the claimed design. The broken line graph feature and the horizontal line of three black dots between “L” and “R” in FIG. 1 form part of the claimed design as shown.

1 Claim, 2 Drawing Sheets
