(57) **CLAIM**

The ornamental design for a display screen with a graphical user interface for fuel valve diagnosis, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

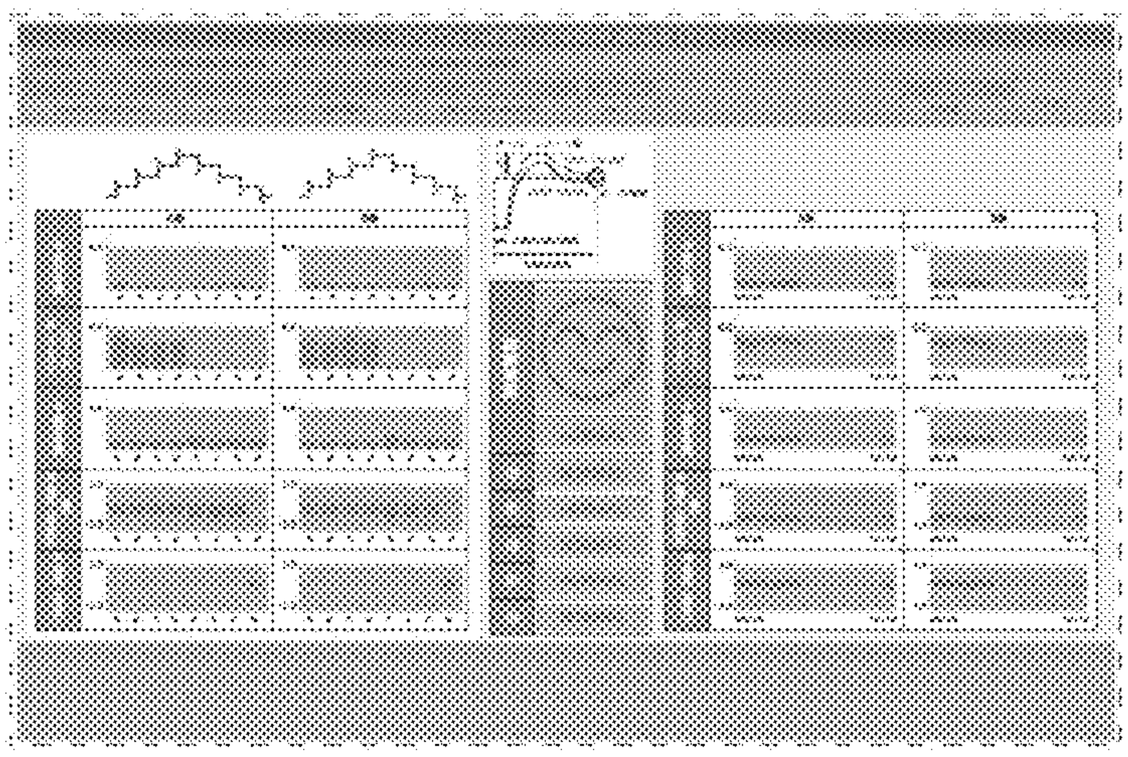
1.Display screen with graphical user interface for fuel valve diagnosis

1.1 is a front view of a display screen with graphical user interface for fuel valve diagnosis; and

1.2 is a is a supplemental view of **1.1**, but shown without all disclaimed portions of the graphical user interface, for the purpose of more clearly illustrating the claimed design.

The blue-colored portions of **1.1** illustrate portions of the graphical user interface that form no part of the claimed design. All text, characters, and numbers in **1.1** illustrate portions of the graphical user interface that form no part of the claimed design. The outermost broken line rectangle in **1.1** and **1.2** illustrate the display screen that forms no part of

(Continued)



the claimed design. The remaining broken lines in **1.1** illustrate portions of the graphical user interface that form no part of the claimed design.
