(57) CLAIM

The ornamental design for a portion of a monitor displayed with a graphical user interface, as shown and described.

DESCRIPTION

The FIGURE is a front elevational view of a portion of a monitor displayed with a graphical user interface, showing the new design.
The evenly-spaced broken lines depict parts of the graphical user interface that form no part of the claimed design. The long-short broken lines depict boundaries of the claimed subject matter and form no part of the claimed design. The long-short-short broken lines show a portion of a monitor (the article in which the design is embodied) and form no part of the claimed design.
