CLAIM

The ornamental design for a synthesizer, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of the synthesizer; FIG. 2 is a top view thereof; FIG. 3 is a bottom view thereof; FIG. 4 is a left side view thereof; FIG. 5 is a right side view thereof; FIG. 6 is a back view thereof; and, FIG. 7 is a front view thereof.

The broken lines shown in the drawings are for the purpose of illustrating portions of the article that form no part of the claimed design.

1 Claim, 5 Drawing Sheets

The image contains two technical drawings of a synthesizer. The top drawing (FIG. 1) is a front perspective view showing a rectangular device with a keyboard on the left and a control panel on the right. The control panel features numerous knobs and sliders. The bottom drawing (FIG. 2) is a top view of the same device, showing the layout of the keyboard and the arrangement of controls from above. Both drawings use solid lines for the claimed design and dashed lines for unclaimed portions.
