CLAIM

The ornamental design for a display screen with graphical user interface for a fire mitigation system, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with graphical user interface for a fire mitigation system of the new design; FIG. 2 is another image thereof with differing broken lines; FIG. 3 is another image thereof with differing broken lines; FIG. 4 is another image thereof with differing broken lines; FIG. 5 is another image thereof with differing broken lines; FIG. 6 is another image thereof with differing broken lines; and, FIG. 7 is another image thereof with differing broken lines. The broken lines showing a display screen and elements of the graphical user interface illustrate portions of the article, and form no part of the claimed design.
