(57) **CLAIM**

The ornamental design for a display screen with graphical user interface for a building controller, as shown and described.

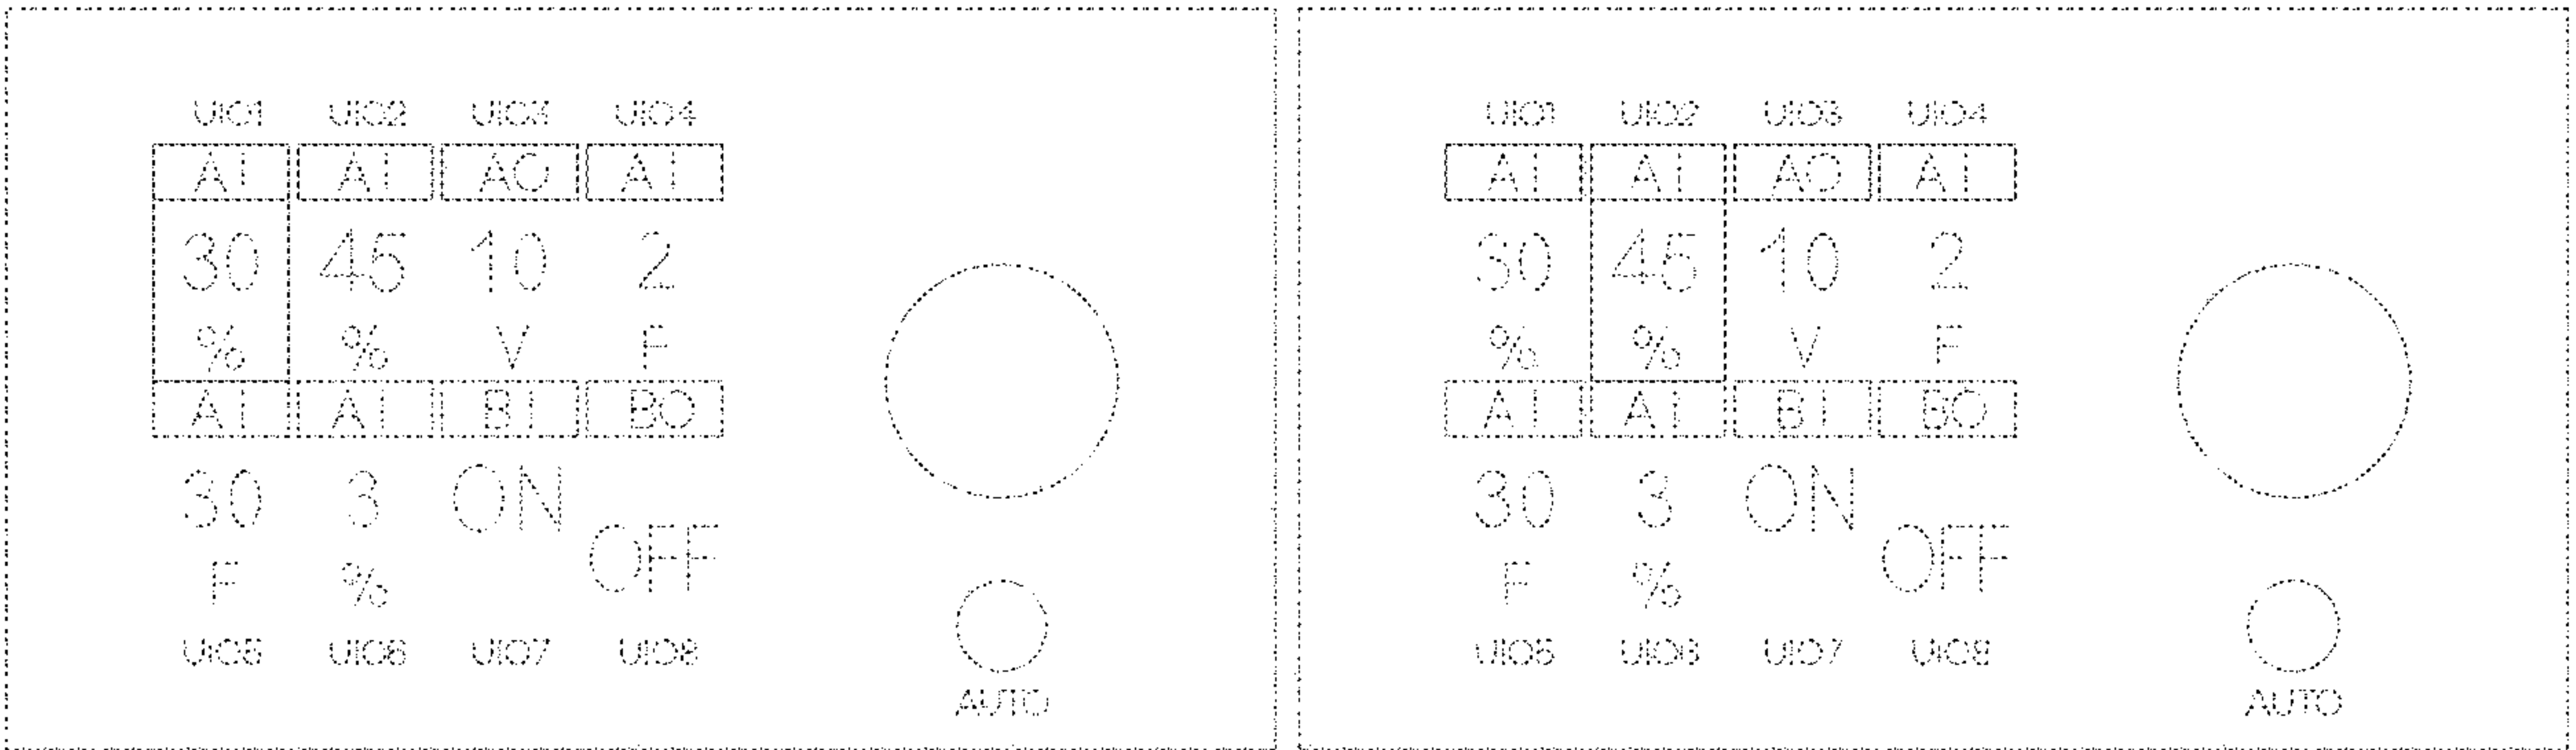

DESCRIPTION

FIG. 1 is a front view of a display screen with graphical user interface for a building controller showing the new design; and,

FIG. 2 is a second embodiment thereof.

The outermost broken line rectangle in each figure illustrates a display screen. The remaining broken lines in each figure illustrate portions of the graphical user interface. None of the broken lines form part of the claimed design.
