(57) **CLAIM**

The ornamental design for a display panel with graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

The FIGURE is a front view of a display panel with graphical user interface showing our new design.

The dash-dash broken lines depict portions of the display panel with graphical user interface and form no part of the claimed design. The dot-dash broken lines define the bounds of the claimed design and form no part thereof.
