CLAIM

The ornamental design for an electronic device with multi-state graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen or portion thereof with multi-state graphical user interface showing a state of the multi-state graphical user interface showing the claimed design; and

FIG. 2 is another state thereof; and,

FIG. 3 is a front view of an electronic device having a display screen with the multi-state graphical user interface of FIG. 1 applied to the display screen. The multi-state graphical user interface of FIG. 2 may be similarly applied thereto.

The broken lines in the figures show a display screen or portion thereof, or an electronic device having a display screen, and form no part of the claimed design.

The appearance of the multi-state graphical user interface changes between the images shown in FIGS. 1 and 2. The process or period in which one image changes from one state to another forms no part of the claimed design.
