(57) CLAIM

The ornamental design for a display screen with transitional graphical user interface, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1.1 is a front view of a first image in a sequence for a display screen with transitional graphical user interface; and FIG. 1.2 is a second image thereof.

The broken line showing a display screen forms no part of the claimed design. The appearance of the transitional image sequentially transitions between the images shown in FIGs. 1.1 and 1.2. The process or period in which one images transitions to another image forms no part of the claimed design.
