(57) **CLAIM**

The ornamental design for a display screen or portion thereof with animated graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.
FIG. 1 is a first image of a display screen or portion thereof with animated graphical user interface showing our new design; and,
FIG. 2 is a second image thereof.
The appearance of the animated image sequentially transitions between images shown in FIGS. 1-2. The process or period in which one image transitions to another image forms no part of the claimed design.
The outermost broken lines show a display screen or portion thereof and form no part of the claimed design.
The other broken lines show portions of the graphical user interface that form no part of the claimed design.
The dot-dash broken lines illustrate boundaries which form no part of the claimed design.
