(57) CLAIM

The ornamental design for a blood collecting device, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing executed in color. Copies of this patent with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

1. Blood collecting device
1.1: Perspective
1.2: Right view device open
1.3: Right view device partially open
1.4: Right view device closed
1.5: Back view device closed
1.6: Bottom view device closed
1.8: Bottom view device partially open
1.9: Front view device closed
1.10: Left view device closed
1.11: Left view device open
1.12: Left view device partially open
1.13: Top view device closed
1.14: Top view device open
1.15: Top view device partially open

The portions of the blood collecting device shown with a red, translucent overlay depict portions of the blood collecting device that form no part of the claimed design.
