(57) **CLAIM**

The ornamental design for a vehicle dashboard display screen with graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a vehicle dashboard display screen with graphical user interface, showing an embodiment of our new design with surrounding environment.

FIG. 2 is a front view of a vehicle dashboard display screen with graphical user interface, showing another embodiment of our new design.

FIG. 3 is a front view of a vehicle dashboard display screen with graphical user interface, showing another embodiment of our new design; and,

FIG. 4 is a front view of a vehicle dashboard display screen with graphical user interface, showing another embodiment of our new design.

FIG. 5 is a front view of a vehicle dashboard display screen with graphical user interface, showing another embodiment of our new design; and,

FIG. 6 is a front view of a vehicle dashboard display screen with graphical user interface, showing another embodiment of our new design.

The outer dash-dotted lines in the drawings depict the outer perimeter of the vehicle dashboard display screen for environmental purposes and form no part of the claimed design. The broken lines in the drawings depict the boundaries of the claimed design. The faded portions shown in FIGS. 1, 3 and 5 surrounded by broken lines or between the outer dash-dotted lines and the broken lines showing the boundaries of
