D544,876 S * 6/2007 Yamazaki D14/486

D733,722 S * 7/2015 Ueda D14/485

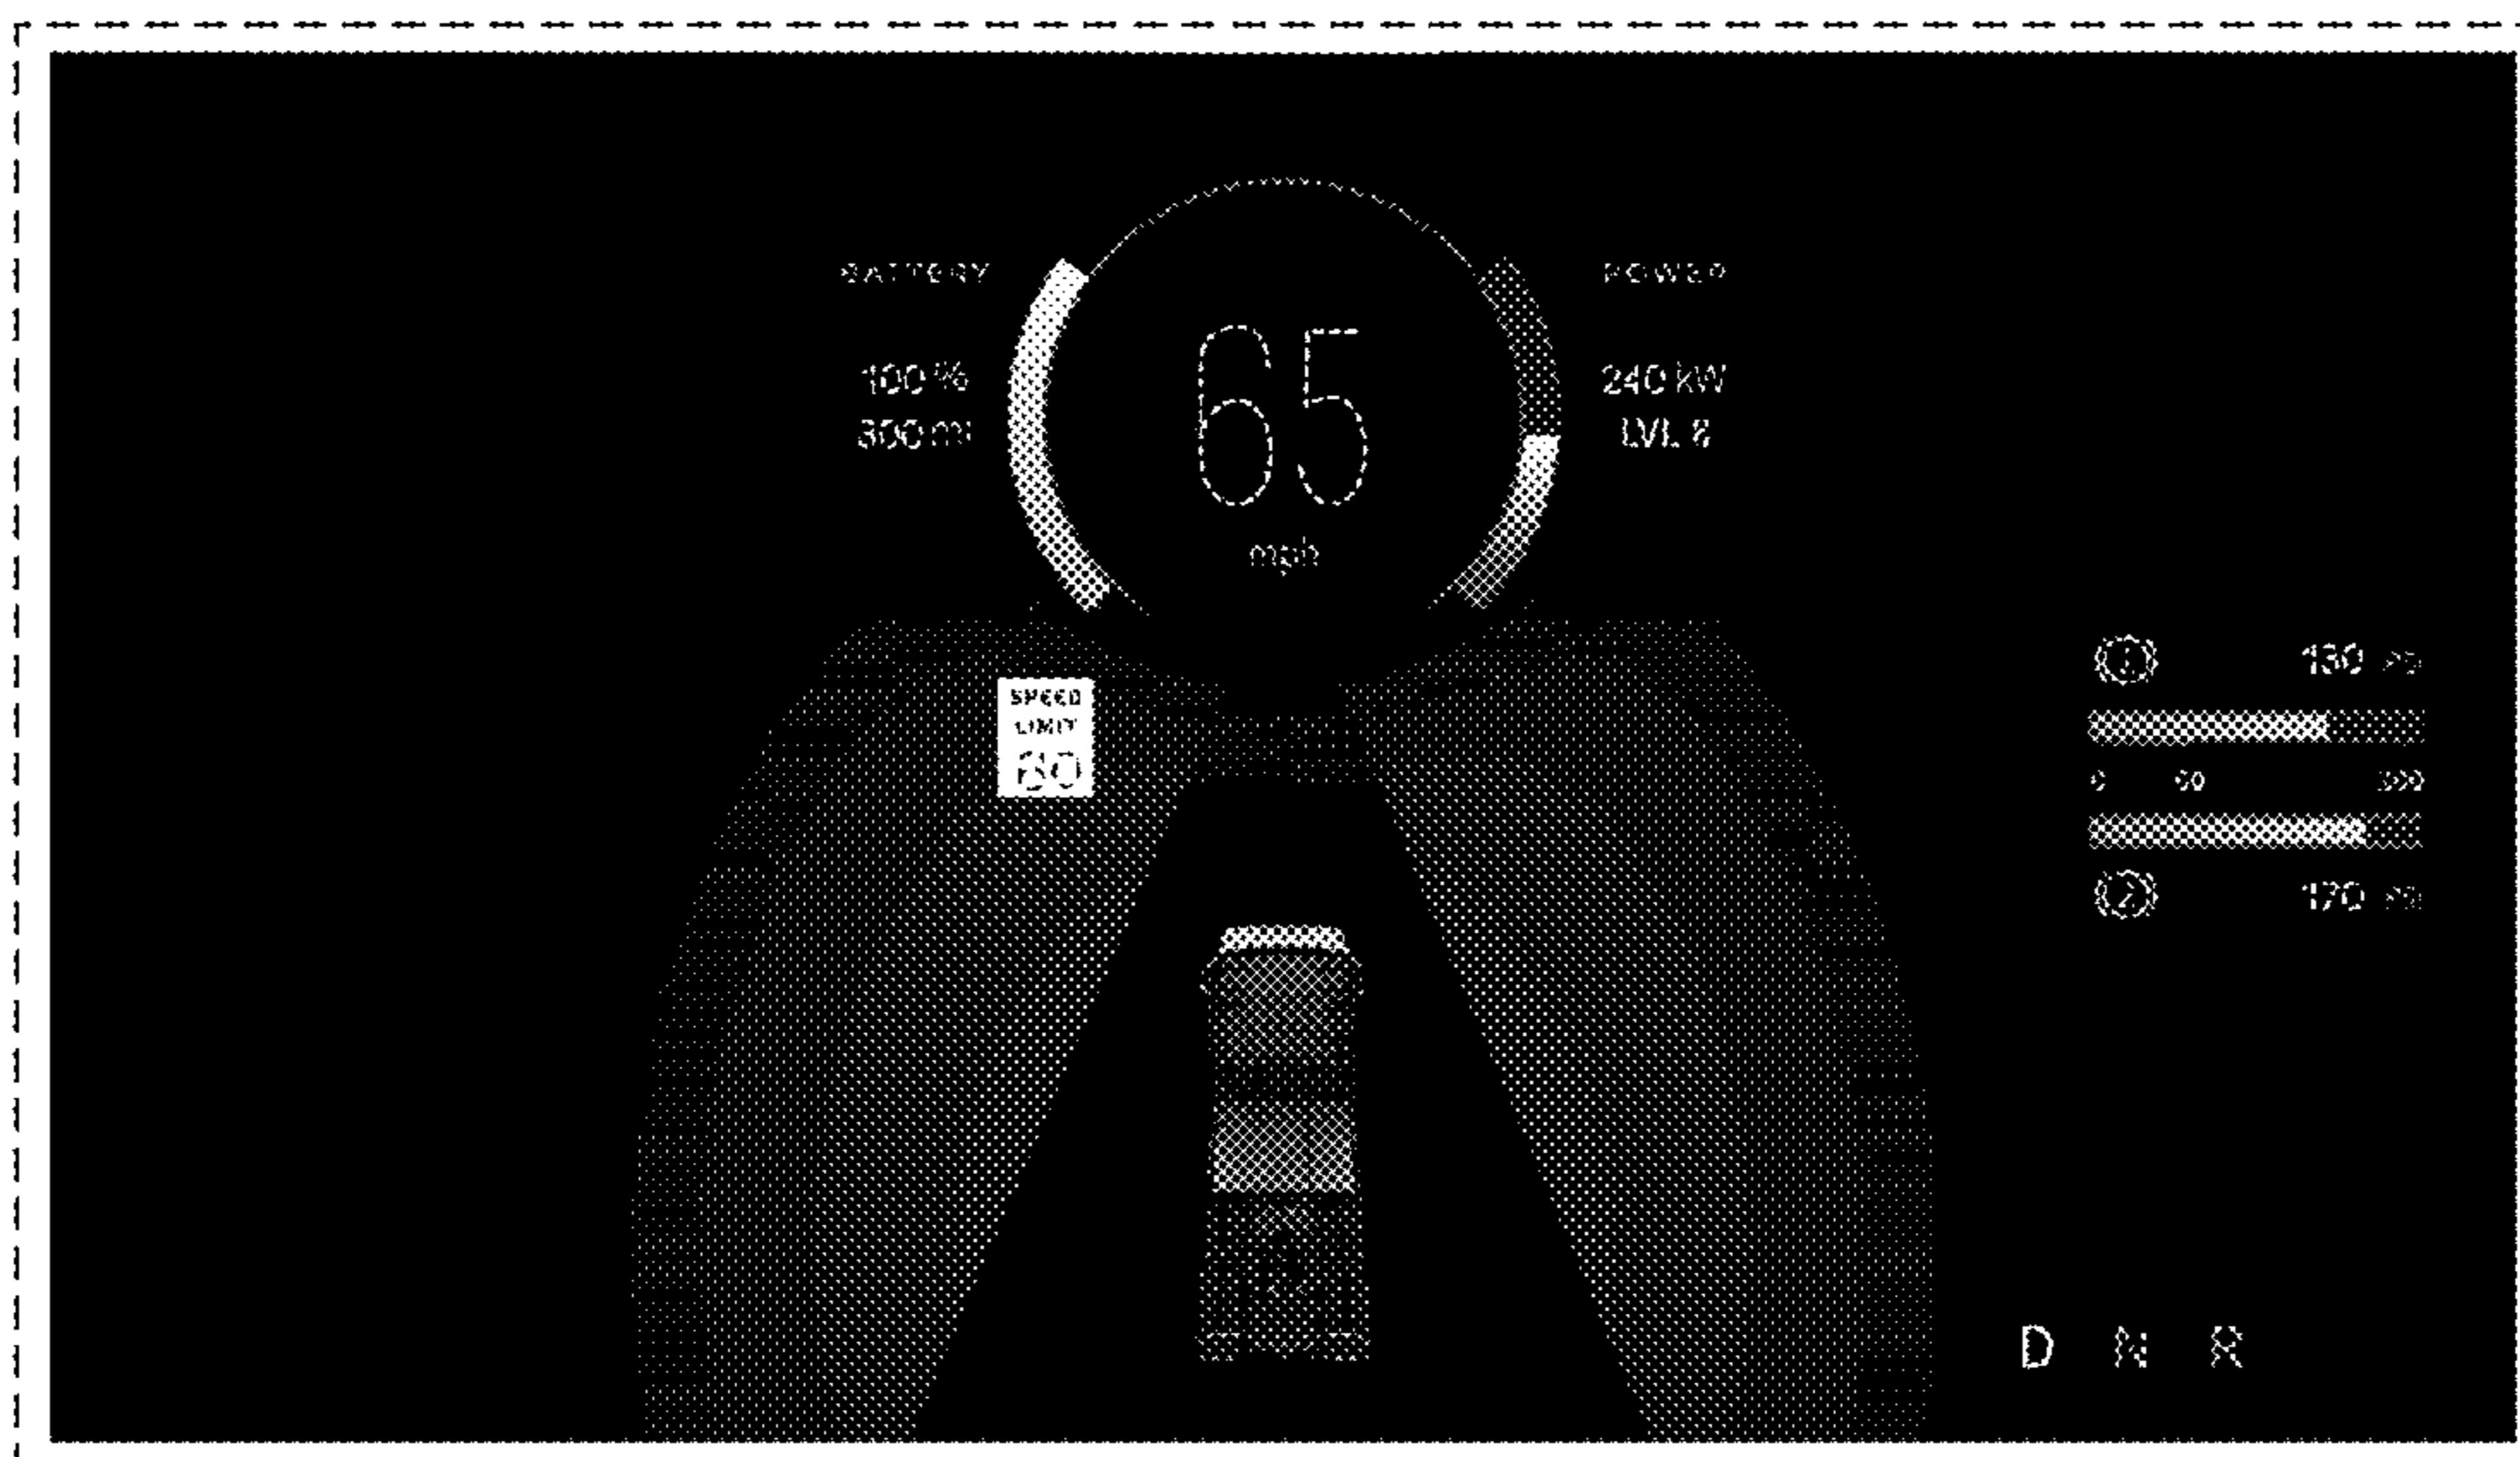

FIG. 1 is a front view of a vehicle display screen with instrument cluster graphical user interface showing a first embodiment of the new design; and,

FIG. 2 is a front view of a vehicle display screen with instrument cluster graphical user interface showing a second embodiment of the new design.

The broken line showing of a display screen in all views forms no part of the claimed design.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1 and 2. The process or period in which one image transitions to the other image forms no part of the claimed design.
