FIG. 1 is a front perspective view of the ram air snorkel for automobiles.

FIG. 2 is a rear perspective view thereof.

FIG. 3 is a left side elevation view thereof.

FIG. 4 is a right side elevation view thereof.

FIG. 5 is a front elevation view thereof.

FIG. 6 is a rear elevation view thereof.

FIG. 7 is a top plan view thereof; and,

FIG. 8 is a bottom plan view thereof.

The shape of the ram air snorkel is the claimed design, shown in solid lines.

The broken lines showing parts of the mounting support for the ram air snorkel form no part of the claimed design. The broken lines showing cavities in the ram air snorkel form no part of the claimed design. The broken lines showing the shape of the outlet port of the ram air snorkel form no part of the claimed design.
