(57) CLAIM

The ornamental design for a notebook computer with peripheral storage pocket, as shown and described.

DESCRIPTION

FIG. 1 is a top-left front perspective view of the notebook computer with peripheral storage pocket according to the claimed design, with the notebook computer in an open position;

FIG. 2 is a top-right front perspective view of the notebook computer with peripheral storage pocket according to the claimed design, with the notebook computer in an open position;

FIG. 3 is a front view of the notebook computer with peripheral storage pocket according to the claimed design, with the notebook computer in the open position;

FIG. 4 is a rear view of the notebook computer with peripheral storage pocket according to the claimed design, with the notebook computer in the open position;

FIG. 5 is a top view of the notebook computer with peripheral storage pocket according to the claimed design, with the notebook computer in the open position;

FIG. 6 is a bottom view of the notebook computer with peripheral storage pocket according to the claimed design, with the notebook computer in the open position;

FIG. 7 is a left side view of the notebook computer with peripheral storage pocket according to the claimed design, with the notebook computer in the open position;

FIG. 8 is a right side view of the notebook computer with peripheral storage pocket according to the claimed design, with the notebook computer in the open position;

FIG. 9 is a cross-sectional view of the notebook computer with peripheral storage pocket according to the claimed design taken along a cut plane indicated as 9-9 in FIG. 5, with the notebook computer in the open position;

(Continued)

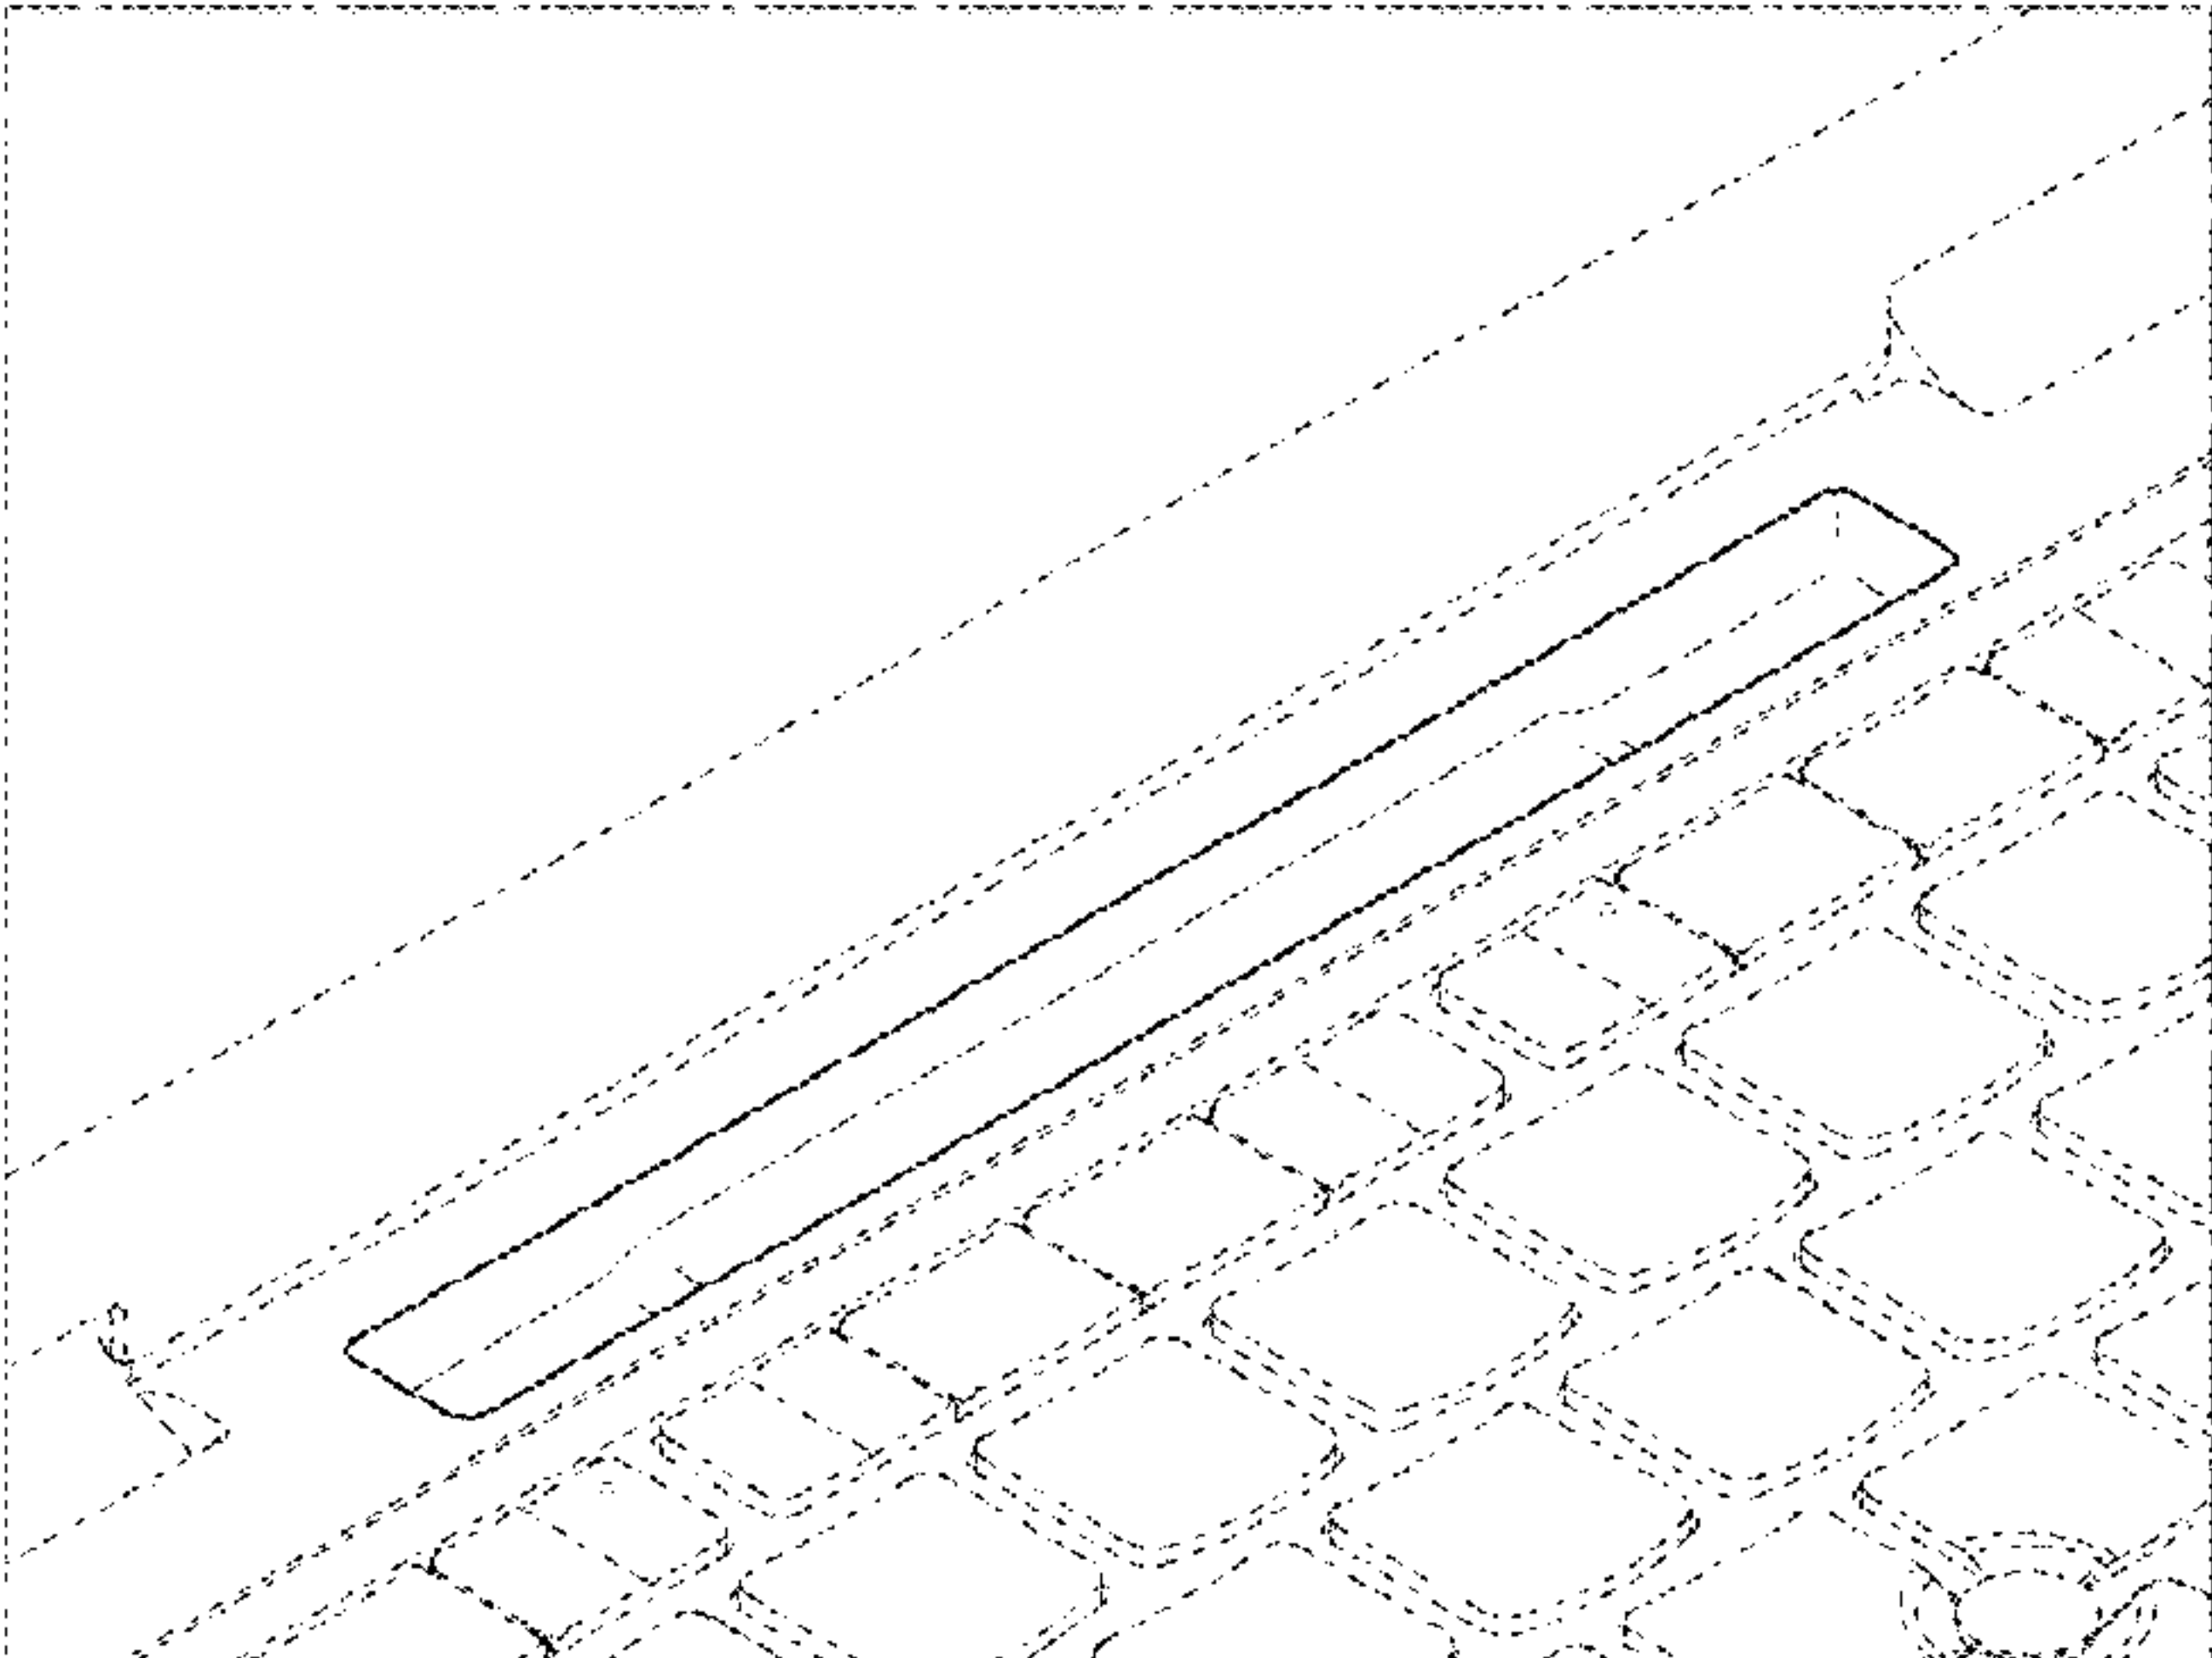

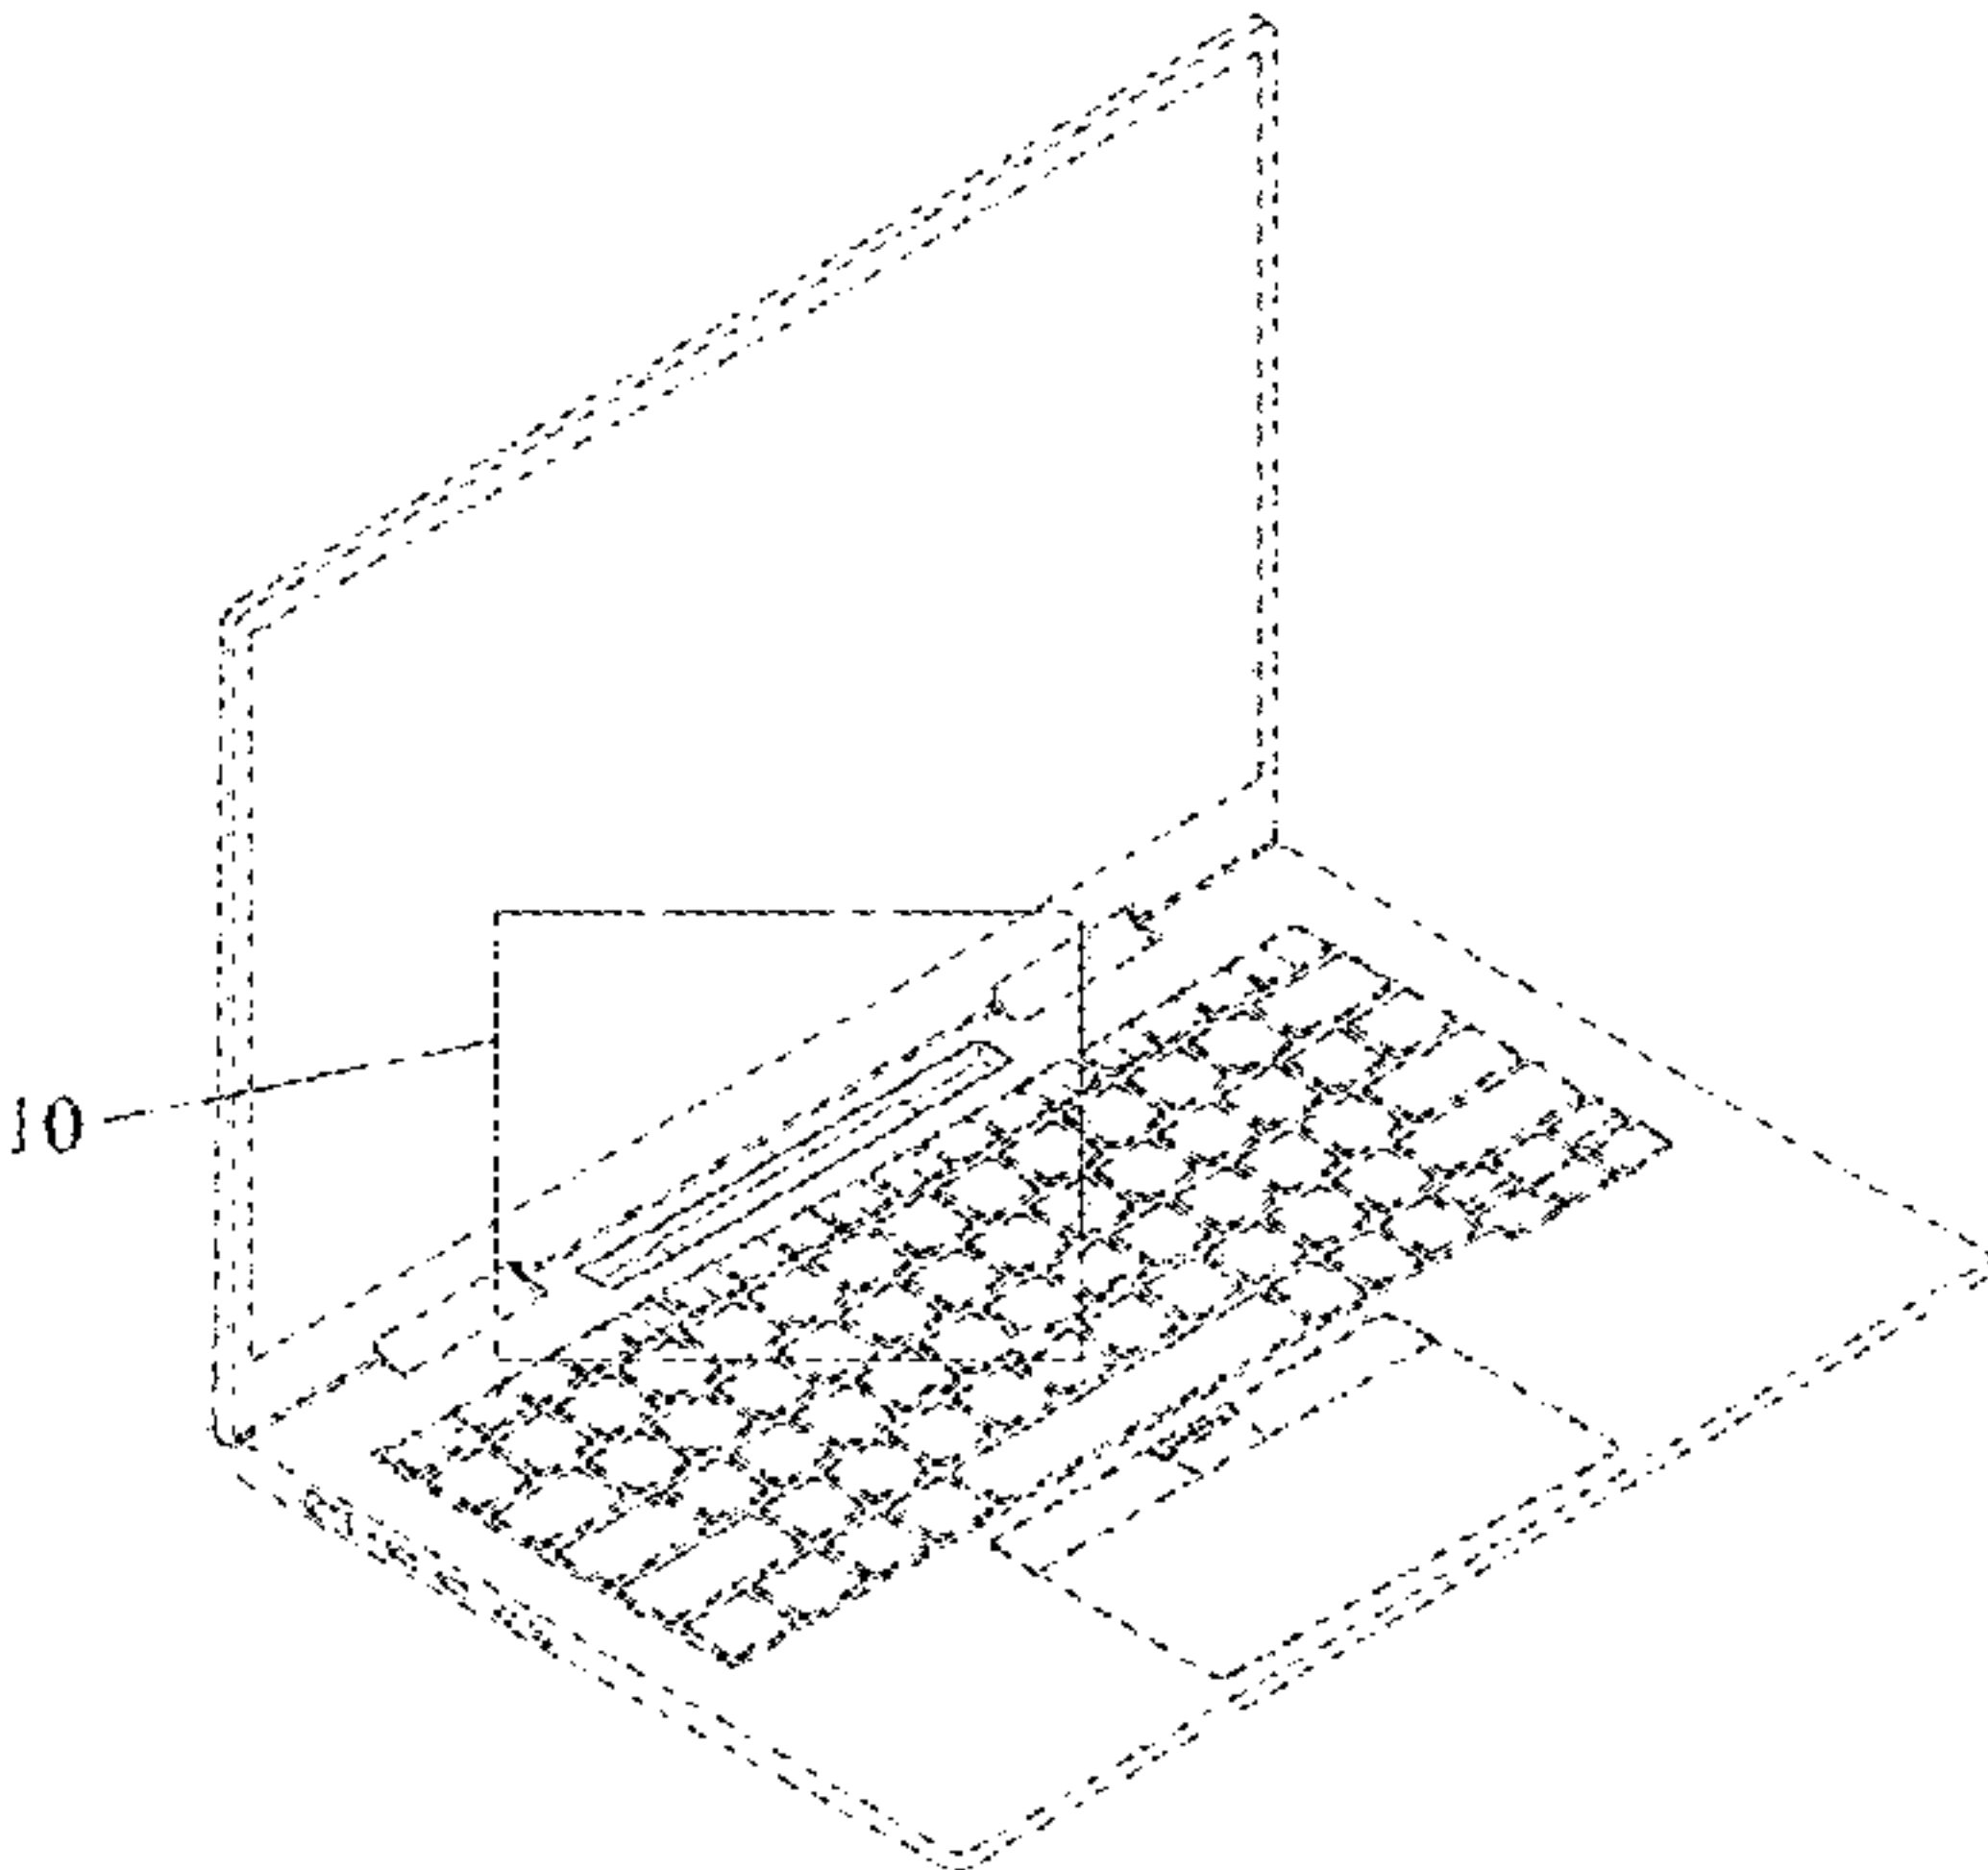

FIG. 10 is an enlarged, top-left front perspective view of the notebook computer with peripheral storage pocket according to the claimed design, with the notebook computer in the open position; and,
FIG. 11 is an enlarged, top-right front perspective view of the notebook computer with peripheral storage pocket according to the claimed design, with the notebook computer in the open position.
The broken lines in FIGS. 1-11 depict portions of the notebook computer that form no part of the claimed design. The dot-dash broken line rectangles in FIGS. 1 and 2 depict the limits of the enlarged views shown in FIGS. 10 and 11, respectively, and form no part of the claimed design. The arrows and characters “9” in FIG. 5 show the cut plane for FIG. 9 and form no part of the claimed design. The hatching in FIG. 9 shows an interior of the notebook computer and not surface ornamentation.

1 Claim, 11 Drawing Sheets
