(57) **CLAIM**

The ornamental design for a display screen or portion thereof with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of the first image in a sequence of a display screen or portion thereof with transitional graphical user interface showing our new design according to a first embodiment;
FIG. 2 is the second image thereof;
FIG. 3 is a front view of the first image in a sequence of a display screen or portion thereof with transitional graphical user interface showing our new design according to a second embodiment;
FIG. 4 is the second image thereof;
FIG. 5 is a front view of the first image in a sequence of a display screen or portion thereof with transitional graphical user interface showing our new design according to a third embodiment;
FIG. 6 is the second image thereof;
FIG. 7 is a front view of the first image in a sequence of a display screen or portion thereof with transitional graphical user interface showing our new design according to a fourth embodiment;
FIG. 8 is the second image thereof;
FIG. 9 is a front view of the first image in a sequence of a display screen or portion thereof with transitional graphical user interface showing our new design according to a fifth embodiment;
FIG. 10 is the second image thereof;
FIG. 11 is a front view of the first image in a sequence of a display screen or portion thereof with transitional graphical user interface showing our new design according to a sixth embodiment;
FIG. 12 is the second image thereof;

(Continued)

FIG. 13 is a front view of the first image in a sequence of a display screen or portion thereof with transitional graphical user interface showing our new design according to a seventh embodiment;
FIG. 14 is the second image thereof;
FIG. 15 is a front view of the first image in a sequence of a display screen or portion thereof with transitional graphical user interface showing our new design according to an eighth embodiment;
FIG. 16 is the second image thereof;
FIG. 17 is a front view of the first image in a sequence of a display screen or portion thereof with transitional graphical user interface showing our new design according to a ninth embodiment;
FIG. 18 is the second image thereof;
FIG. 19 is a front view of the first image in a sequence of a display screen or portion thereof with transitional graphical user interface showing our new design according to a tenth embodiment;
FIG. 20 is the second image thereof;
FIG. 21 is a front view of the first image in a sequence of a display screen or portion thereof with transitional graphical user interface showing our new design according to an eleventh embodiment;
FIG. 22 is the second image thereof;
FIG. 23 is a front view of the first image in a sequence of a display screen or portion thereof with transitional graphical user interface showing our new design according to a twelfth embodiment; and,
FIG. 24 is the second image thereof.

The dashed broken line perimeter in the figures shows a display screen or portion thereof and forms no part of the claimed design.

The appearance of the graphical user interface sequentially transitions between the images shown in FIGS. 1-2, 3-4, 5-6, 7-8, 9-10, 11-12, 13-14, 15-16, 17-18, 19-20, 21-22, and 23-24, respectively. The process or period in which one image transitions to another image forms no part of the claimed design.
